Apacer Technology Inc.

1F, No.32, Zhongcheng Rd., Tucheng Dist., New Taipei City, Taiwan, R.O.C

Tel: +886-2-2267-8000

Fax: +886-2-2267-2261

www.apacer.com

FEATURES:

- **USB2.0 High-Speed and USB1.1 Full-Speed compatible interface**
- **Capacity**
 - For SLC: 128, 256, 512 MB
1, 2, 4, 8, 16, 32 GB
 - For MLC: 4, 8, 16, 32 GB
- **Performance**
 - Sustained read: up to 34 MB/s
 - Sustained write: up to 22 MB/s
- **Intelligent USB Module**
 - Implements advanced wear-leveling algorithms to substantially increase longevity of flash media
 - ECC
- **Temperature ranges**
 - 0°C to 70°C (standard)
- **Power consumption (typical)**
 - Active mode: 185 mA
 - Idle mode: 65 mA
 - Operating voltage: 5V
- **RoHS Compliant**
- **Dimensions:** 55.29 x 18.00 x 8.50, unit: mm
- **LED indicator**
- **EMC: CE, FCC**

Notes: the results for performance and power consumption addressed here may vary in real world platforms.

5.2 Valid Combinations	7

1. General Description

Apacer's USB FLASH Drive (UFD) is a high performance, flash disk drive designed offering portable storage solutions. UFDs can be plugged into a standard USB 2.0 connector commonly found in desktops, portable computers and even enterprise PC systems. Apacer's UFDs have an efficient built-in microcontroller and file management firmware that ensures ideal performance, functionality and reliability. This product is well suited for portable flash storage applications while operating at minimal power consumption.

1.1 Performance-optimized USB Controller

The heart of an UDM is the USB controller, which translates standard USB signals to the flash media and controls the data in/out between the controller itself and the flash media. This proprietary USB controller is specifically designed to attain high data throughput from host to flash.

1.1.1 Error Correction Code (ECC)

The UDM uses BCH Error Detection Code (EDC) and Error Correction Code (ECC) algorithms which correct up to 24 random single-bit errors for each 1024-byte block of data.

1.1.2 Wear-Leveling

Flash memory can be erased a limited number of times. In a typical application, and especially if a file system is used, specific pages are constantly updated (e.g., the page that contains the FAT, registry, etc.). Without any special handling, these pages would wear out more rapidly than other pages, reducing the lifetime of the entire flash. To overcome this inherent deficiency, Apacer's USB-Disk Module (UDM) uses wear-leveling algorithm. This wear-leveling algorithm ensures that consecutive writes of a specific sector are not written physically to the same page in the flash. This distributes flash media usage evenly across all pages, thereby maximizing flash lifetime. The wear-leveling mechanism provides write/erase cycles for reliable data storage over an extended period.

2. General Specifications

Interface	High-speed USB2.0 compliant; backward compatible with USB 1.1
Performance*	SLC: up to 34 MB/s (read); 22 MB/s (write) MLC: up to 33 MB/s (read); 16 MB/s (write)
Temperature	0 to 70°C
Shock	Half sine wave 40 G, 11ms / Square wave 100 G, 6ms
EMC	FCC, CE
MTBF	2,000,000 hours (SLC) / 1,000,000 (MLC)

*Results may vary from flash configurations or host system settings.

2.1 Performance Specifications – SLC

Table 2-1: SLC Performance Specifications

Capacity	256 MB	512 MB	1 GB	2 GB	4 GB	8 GB	16 GB	32 GB
Performance								
Sustained read (MB/s)	31	31	32	34	28	32	34	31
Sustained write (MB/s)	10	15	19	19	21	15	22	21

Note: results may vary depending on flash configurations or host system settings

2.2 Performance Specifications – MLC

Table 2-2: MLC Performance Specifications

Capacity	4 GB	8 GB	16 GB	32 GB
Performance				
Sustained read (MB/s)	32	32	33	33
Sustained write (MB/s)	10	10	14	16

Note: results may vary depending on flash configurations or host system settings

3. Electrical Specification

Caution: Absolute Maximum Stress Ratings – Applied conditions greater than those listed under “Absolute Maximum Stress Ratings” may cause permanent damage to the device. This is a stress rating only and functional operation of the device at these conditions or conditions greater than those defined in the operational sections of this data sheet is not implied. Exposure to absolute maximum stress rating conditions may affect device reliability.

Table: Absolute Stress Rating

Parameters	Conditions
Ambient temperature	0 to 70 °C
Required power supply	4.5-5.5V
Input power (V_{DD})	-0.3V (min.) to 5.5V (max.)
Voltage on any pin except V_{DD} with respect to GND	-0.3V (min.) to $V_{DD} + 0.3V$ (max.)

4. Physical Dimensions

5. Product Ordering Information

5.1 Product Code Designation

5.2 Valid Combinations

5.2.1 AH322 (SLC)

Capacity	Standard
128MB	APHA128MR23CG-2T
256MB	APHA256MR23CG-2T
512MB	APHA512MR23CG-2T
1GB	APHA001GR23CG-2T
2GB	APHA002GR23CG-2T
4GB	APHA004GR23CG-2T
8GB	APHA008GR23CG-2T
16GB	APHA016GR23CG-2T
32GB	APHA032GR23CG-2T

5.2.2 AH322 (MLC)

Capacity	Standard
4GB	APHA004GR23CG-CM
8GB	APHA008GR23CG-CM
16GB	APHA016GR23CG-CM
32GB	APHA032GR23CG-CM

Note: For availability or customized requests, please consult with Apacer sales representatives.

Revision History

Revision	Description	Date
1.0	Official Release	August 11 th , 2011
1.1	Updated Product Ordering Information	June 20 th , 2012
1.2	Updated Product Ordering Information - contents relating to extended temperature are removed	July 2 nd , 2012
1.3	Updated read/write performance due to change in NAND flash use Updated addresses of Taiwan headquarter and the office in India	August 6 th , 2013
1.4	Added performance tables	June 4 th , 2014

Компания «Life Electronics» занимается поставками электронных компонентов импортного и отечественного производства от производителей и со складов крупных дистрибьюторов Европы, Америки и Азии.

С конца 2013 года компания активно расширяет линейку поставок компонентов по направлению коаксиальный кабель, кварцевые генераторы и конденсаторы (керамические, пленочные, электролитические), за счёт заключения дистрибьюторских договоров

Мы предлагаем:

- Конкурентоспособные цены и скидки постоянным клиентам.
- Специальные условия для постоянных клиентов.
- Подбор аналогов.
- Поставку компонентов в любых объемах, удовлетворяющих вашим потребностям.
- Приемлемые сроки поставки, возможна ускоренная поставка.
- Доставку товара в любую точку России и стран СНГ.
- Комплексную поставку.
- Работу по проектам и поставку образцов.
- Формирование склада под заказчика.
- Сертификаты соответствия на поставляемую продукцию (по желанию клиента).
- Тестирование поставляемой продукции.
- Поставку компонентов, требующих военную и космическую приемку.
- Входной контроль качества.
- Наличие сертификата ISO.

В составе нашей компании организован Конструкторский отдел, призванный помогать разработчикам, и инженерам.

Конструкторский отдел помогает осуществить:

- Регистрацию проекта у производителя компонентов.
- Техническую поддержку проекта.
- Защиту от снятия компонента с производства.
- Оценку стоимости проекта по компонентам.
- Изготовление тестовой платы монтаж и пусконаладочные работы.
