

## LSG Series

### Features

- Snap-in terminal type
- 105°C, 2,000 hours assured
- RoHS Compliance

Sleeve & Marking Color: Brown & White

### Specifications

| Items                                                                                                                                                                                                                                                                | Performance                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |                                   |      |         |           |      |      |        |              |      |      |      |      |      |      |               |           |    |         |           |     |    |        |          |     |              |           |     |      |      |                    |                              |      |           |      |      |      |      |      |      |           |      |      |      |      |      |                                   |              |           |  |      |      |      |      |      |  |  |  |  |  |                 |                        |  |  |  |  |  |  |  |  |  |  |  |  |  |

| * The above Specifications shall be satisfied when the capacitors are restored to 20℃ after exposing them for 1,000 hours at 105℃ without voltage applied. The rated voltage shall be applied to the capacitors before the measurements (Refer to JIS C 5101-4 4.1). |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                   |      |         |           |      |      |        |              |      |      |      |      |      |      |               |           |    |         |           |     |    |        |          |     |              |           |     |      |      |                    |                              |      |           |      |      |      |      |      |      |           |      |      |      |      |      |                                   |              |           |  |      |      |      |      |      |  |  |  |  |  |                 |                        |  |  |  |  |  |  |  |  |  |  |  |  |  |

## ESR-Temperature Characteristics

Компания «Life Electronics» занимается поставками электронных компонентов импортного и отечественного производства от производителей и со складов крупных дистрибьюторов Европы, Америки и Азии.

С конца 2013 года компания активно расширяет линейку поставок компонентов по направлению коаксиальный кабель, кварцевые генераторы и конденсаторы (керамические, пленочные, электролитические), за счёт заключения дистрибьюторских договоров

Мы предлагаем:

- Конкурентоспособные цены и скидки постоянным клиентам.
- Специальные условия для постоянных клиентов.
- Подбор аналогов.
- Поставку компонентов в любых объемах, удовлетворяющих вашим потребностям.
- Приемлемые сроки поставки, возможна ускоренная поставка.
- Доставку товара в любую точку России и стран СНГ.
- Комплексную поставку.
- Работу по проектам и поставку образцов.
- Формирование склада под заказчика.
- Сертификаты соответствия на поставляемую продукцию (по желанию клиента).
- Тестирование поставляемой продукции.
- Поставку компонентов, требующих военную и космическую приемку.
- Входной контроль качества.
- Наличие сертификата ISO.

В составе нашей компании организован Конструкторский отдел, призванный помогать разработчикам, и инженерам.

Конструкторский отдел помогает осуществить:

- Регистрацию проекта у производителя компонентов.
- Техническую поддержку проекта.
- Защиту от снятия компонента с производства.
- Оценку стоимости проекта по компонентам.
- Изготовление тестовой платы монтаж и пусконаладочные работы.
