

## T90 Series, 30A PCB Relay

- 30A, 1 form A (NO); 20A, 1 form C (CO)
- Available as open frame or sealed construction
- Meets UL 508 and 873 Spacing - 3.18 through air, 6.36 over surface
- UL class F insulation system standard

Typical applications  
HVAC, Appliances, Industrial Controls.

### Approvals

UL E22575; CSA LR15734  
Technical data of approved types on request.

### Contact Data

|                                             |                                             |
|---------------------------------------------|---------------------------------------------|
| Contact arrangement                         | 1 form A (NO), 1 form B (NC), 1 form C (CO) |
| Rated voltage                               | 277VAC                                      |
| Max. switching voltage                      | 277VAC                                      |
| Rated current                               | 30A                                         |
| Limiting continuous current                 | 30A                                         |
| Limiting making current                     | 30A                                         |
| Limiting breaking current                   | 30A                                         |
| Contact material                            | AgCdO                                       |
| Min. recommended contact load               | 1A, 5VDC or 12VAC                           |
| Initial contact resistance                  | 75 mΩ at 1A at 5VDC or 12VAC                |
| Frequency of operation, with load           | 360hr                                       |
| Operate/release time max., including bounce | 15/15ms                                     |

| 24        | 24                | 18                  | 2.4                 | 660                   | 900                |
| 48        | 48                | 36                  | 4.8                 | 2560                  | 900                |
| 110       | 110               | 82.5                | 11                  | 13450                 | 900                |

All figures are given for coil without preenergization, at ambient temperature +23°C.

### Ambient temperature vs. coil voltage - 1W coil

Data graphed above are average values and should be verified in application. Tests were conducted within a 2' (.6m) cube (still air); at nominal coil power @ 25°C; with normally open contact loaded; and with 4' (1.22m) long, #10AWG load wires. P.C. board relays were mounted to a 30A, single side P.C. board. Coil rise test conducted with a 30A PC board to maintain 20°C max. rise at 30°C. The relay connections and wiring must be designed with an adequate cross section to ensure proper current flow and heat dissipation. After cleaning process knock-off nib should be removed for optimum life of wash-tight relays.

Resistance to soldering heat THT

IEC 60068-2-20 250°C

Packaging/unit tray/50 pcs., box/500 pcs.

1) Operating ambient temperature must consider "Must Operate Voltage Change Over Temperature," Contact Temperature Rise, Coil Temperature Rise (If coil is not allowed to cool) and Maximum Coil Temperature. Specification ambient considers 20A load with coil cooled to ambient.

**Dimensions**

T90N

T90S

**Terminal assignment**

Bottom view on pins

**PCB layout**

Bottom view on pins

Only necessary terminals are present on single throw models and terminal code 4 models. Consequently, some holes will be unnecessary for those models.

**Accessory**

Optional plastic dust cover is a snap-on unit, open on the PC board side of the relay. The cover, when ordered with the relay, is shipped separately. It is designed to be snapped into place by the customer after the relay has been assembled to the PC board.

| Product Code | Description                             | Part Number |
|--------------|-----------------------------------------|-------------|
| 35C620A      | Black dust cover, for use on T90N relay | 4-1393209-2 |

35C620A

Компания «Life Electronics» занимается поставками электронных компонентов импортного и отечественного производства от производителей и со складов крупных дистрибьюторов Европы, Америки и Азии.

С конца 2013 года компания активно расширяет линейку поставок компонентов по направлению коаксиальный кабель, кварцевые генераторы и конденсаторы (керамические, пленочные, электролитические), за счёт заключения дистрибьюторских договоров

Мы предлагаем:

- Конкурентоспособные цены и скидки постоянным клиентам.
- Специальные условия для постоянных клиентов.
- Подбор аналогов.
- Поставку компонентов в любых объемах, удовлетворяющих вашим потребностям.
- Приемлемые сроки поставки, возможна ускоренная поставка.
- Доставку товара в любую точку России и стран СНГ.
- Комплексную поставку.
- Работу по проектам и поставку образцов.
- Формирование склада под заказчика.
- Сертификаты соответствия на поставляемую продукцию (по желанию клиента).
- Тестирование поставляемой продукции.
- Поставку компонентов, требующих военную и космическую приемку.
- Входной контроль качества.
- Наличие сертификата ISO.

В составе нашей компании организован Конструкторский отдел, призванный помогать разработчикам, и инженерам.

Конструкторский отдел помогает осуществить:

- Регистрацию проекта у производителя компонентов.
- Техническую поддержку проекта.
- Защиту от снятия компонента с производства.
- Оценку стоимости проекта по компонентам.
- Изготовление тестовой платы монтаж и пусконаладочные работы.
