

## Magnetometer

# BM1422AGMV-EVK-001 Manual

BM1422AGMV-EVK-001 is an evaluation board for BM1422AGMV which is ROHM MI sensor. This User's Guide is written about how to use BM1422AGMV-EVK-001 by using SensorShield.\*1. \*1 SensorShield is sold as part of SensorShield-EVK-001.

## Preparation

- Arduino Uno 1pcs
- Personal Computer installed Arduino IDE 1pcs
  - Requirement : Arduino 1.6.7 later
  - Please use Arduino IDE downloaded from <http://www.arduino.cc/>
- USB cable for connecting Arduino and PC 1pcs
- SensorShield 1pcs
- BM1422AGMV-EVK-001 1pcs

Figure 2. Connection between BM1422AGMV-EVK-001 and SensorShield

## Setting

1. Connect Arduino and SensorShield (Figure 1)

Figure 1. Connection between Arduino and SensorShield

5. Connect PC and Arduino with USB cable
  6. Download BM1422AGMV.zip from <http://www.rohm.com/web/global/sensor-shield-support>
  7. Launch Arduino IDE
  8. Select[Sketch]->[Include Library]->[Add.ZIP library...], install 6 ZIP files
  9. Select[File]->[Examples]->[BM1422AGMV]->[example]->[BM1422AGMV]
2. Connect BM1422AGMV-EVK-001 to the socket of I2C\_1 on SensorShield (Figure 2)
  3. Set Voltage of SensorShield to 1.8V or 3.0V (Figure 2)
  4. Set Interrupt of SensorShield to INTR1 (Figure 2)

Measurement

1. Check the red frame contents. Board is "Arduino/Genuino Uno". Port is COMxx (Arduino/Genuino Uno). COM port number is different in each environment.

Figure 3. COM Port setting

2. Write the program by right arrow button for upload (Figure 4)
3. Check the message of "Done uploading" (Figure 4)

Figure 4. Uploading

4. Select Tools->Serial Monitor (Figure 5)

Figure 5. Tools Setting

5. Check log of Serial Monitor (Figure 6)

Figure 6. Serial Monitor

Board Information

Figure 7. Picture of the board

| Parts number | Function                          |
|--------------|-----------------------------------|
| C1           | Bypass capacitor for DVDD(0.01uF) |
| C2           | Bypass capacitor for VREG(1uF)    |
| C3           | Bypass capacitor for AVDD(1uF)    |
| R1           | Pull-up register for SCL(N.M.)    |
| R2           | Pull-up register for SDA(N.M.)    |
| JP1          | Jumper to change slave address    |

※N.M. = No Mount

## Notes

- 1) The information contained herein is subject to change without notice.
- 2) Before you use our Products, please contact our sales representative and verify the latest specifications :
- 3) Although ROHM is continuously working to improve product reliability and quality, semiconductors can break down and malfunction due to various factors.  
Therefore, in order to prevent personal injury or fire arising from failure, please take safety measures such as complying with the derating characteristics, implementing redundant and fire prevention designs, and utilizing backups and fail-safe procedures. ROHM shall have no responsibility for any damages arising out of the use of our Products beyond the rating specified by ROHM.
- 4) Examples of application circuits, circuit constants and any other information contained herein are provided only to illustrate the standard usage and operations of the Products. The peripheral conditions must be taken into account when designing circuits for mass production.
- 5) The technical information specified herein is intended only to show the typical functions of and examples of application circuits for the Products. ROHM does not grant you, explicitly or implicitly, any license to use or exercise intellectual property or other rights held by ROHM or any other parties. ROHM shall have no responsibility whatsoever for any dispute arising out of the use of such technical information.
- 6) The Products specified in this document are not designed to be radiation tolerant.
- 7) For use of our Products in applications requiring a high degree of reliability (as exemplified below), please contact and consult with a ROHM representative : transportation equipment (i.e. cars, ships, trains), primary communication equipment, traffic lights, fire/crime prevention, safety equipment, medical systems, servers, solar cells, and power transmission systems.
- 8) Do not use our Products in applications requiring extremely high reliability, such as aerospace equipment, nuclear power control systems, and submarine repeaters.
- 9) ROHM shall have no responsibility for any damages or injury arising from non-compliance with the recommended usage conditions and specifications contained herein.
- 10) ROHM has used reasonable care to ensure the accuracy of the information contained in this document. However, ROHM does not warrants that such information is error-free, and ROHM shall have no responsibility for any damages arising from any inaccuracy or misprint of such information.
- 11) Please use the Products in accordance with any applicable environmental laws and regulations, such as the RoHS Directive. For more details, including RoHS compatibility, please contact a ROHM sales office. ROHM shall have no responsibility for any damages or losses resulting non-compliance with any applicable laws or regulations.
- 12) When providing our Products and technologies contained in this document to other countries, you must abide by the procedures and provisions stipulated in all applicable export laws and regulations, including without limitation the US Export Administration Regulations and the Foreign Exchange and Foreign Trade Act.
- 13) This document, in part or in whole, may not be reprinted or reproduced without prior consent of ROHM.

Thank you for your accessing to ROHM product informations.  
More detail product informations and catalogs are available, please contact us.

[ROHM Semiconductor:](#)

[BM1422AGMV-EVK-001](#)

Компания «Life Electronics» занимается поставками электронных компонентов импортного и отечественного производства от производителей и со складов крупных дистрибьюторов Европы, Америки и Азии.

С конца 2013 года компания активно расширяет линейку поставок компонентов по направлению коаксиальный кабель, кварцевые генераторы и конденсаторы (керамические, пленочные, электролитические), за счёт заключения дистрибьюторских договоров

Мы предлагаем:

- Конкурентоспособные цены и скидки постоянным клиентам.
- Специальные условия для постоянных клиентов.
- Подбор аналогов.
- Поставку компонентов в любых объемах, удовлетворяющих вашим потребностям.
- Приемлемые сроки поставки, возможна ускоренная поставка.
- Доставку товара в любую точку России и стран СНГ.
- Комплексную поставку.
- Работу по проектам и поставку образцов.
- Формирование склада под заказчика.
- Сертификаты соответствия на поставляемую продукцию (по желанию клиента).
- Тестирование поставляемой продукции.
- Поставку компонентов, требующих военную и космическую приемку.
- Входной контроль качества.
- Наличие сертификата ISO.

В составе нашей компании организован Конструкторский отдел, призванный помогать разработчикам, и инженерам.

Конструкторский отдел помогает осуществить:

- Регистрацию проекта у производителя компонентов.
- Техническую поддержку проекта.
- Защиту от снятия компонента с производства.
- Оценку стоимости проекта по компонентам.
- Изготовление тестовой платы монтаж и пусконаладочные работы.
