

# High-Performance Compact Circular Connectors

## HR22 Series

### ■ Overview

The HR22 Series are 20-pin compact circular connectors developed as an interface between machine tool motors and operation panels, with a screw coupling type locking mechanism to prevent unlocking due to motor vibration, and are available in either waterproof or non-waterproof types.

### ■ Features

**1. Available in waterproof and non-waterproof types.**

Engaged waterproof type connectors are free from water penetration for 48 hours at a depth of 1.8 meters.

**2. Anti-loosening locking mechanism.**

The locking mechanism has an anti-loosening spring in a screw coupling.

**3. Two types of termination**

Available in two wiring styles for wider selection: Crimp type and soldering.

**4. Easy receptacle mounting**

A receptacle may be mounted quickly on a panel by tightening a nut.

**5. Available with wire protection**

This type of connector has a shell with a cordbushing for increased cable curvature and protection against wire breakage when bending the wire.

**6. High-density design**

The maximum plug dia. is 21mm for higher density of a 20-pin type connector.

## HR22 Series High-Performance Compact Circular Connectors

### Materials

Part	Material	Finish
Shell	Zinc alloy and Brass	Nickel plating
Insulator	PBT	(Black)
Male terminal	Brass/Phosphor bronze	Silver plating
Female terminal	Beryllium copper / Phosphor bronze	Silver plating

### Ordering information

Please determine the specific product. If listed needed, please select and order the product No.

**HR22 - 12 W T P A - 20 SC (\*\*)**

①      ②      ③      ④      ⑤      ⑥      ⑦      ⑧      ⑨

① Series name: HR22	⑤ Shell type P: Plug J: Jack R: Receptacle	⑦ Number of pins
② Shell size: This number indicates the outer dia. of the shell of the plug mating part.		⑧ Pin style P: Male pin    PC: Crimp type male pin S: Female pin   SC: Crimp type female pin
③ W: Waterproof Blank: Non-waterproof	⑥ Shell shape Each time alternation is made to the shell shape, the symbol changes such as A,B,C,D,E and so forth. Characters C,J,P and R are not used to avoid misunderstanding.	⑨ Other specifications: 2 numerical digits will be added when there is a specifications change other than shown ① to ⑧
④ Locking mechanism T: Screw coupling type		

### Panel mounting dimensions

Panel thickness t : 1 to 3mm

### Pin allocation and major functions

Pin allocation	
Number of pins	20
Withstand voltage	AC300V for 1 minute
Current capacity	2A
Insulation resistance	1000MΩ or more at DC100V
Contact resistance	20mΩ or less
Solder pot inner dia.	φ0.8

Notes:

- The above figure shows the pin allocation viewed from the engagement side.
- The above withstand voltage shows the test voltage.
- The above current capacity shows value per pin.
- The above contact resistance shows value measured at 1A DC.

**◆Precautions**

1. Switch off the power of the circuit before disconnecting or plugging-in the connectors.
2. Use connectors with socket contacts at the power side of the circuit.
3. Make sure that the coupling is in completely cocked position.
4. The cable pull and twisting strength and other characteristics may differ, depending on the cable structure. Please confirm before the use.

Компания «Life Electronics» занимается поставками электронных компонентов импортного и отечественного производства от производителей и со складов крупных дистрибьюторов Европы, Америки и Азии.

С конца 2013 года компания активно расширяет линейку поставок компонентов по направлению коаксиальный кабель, кварцевые генераторы и конденсаторы (керамические, пленочные, электролитические), за счёт заключения дистрибьюторских договоров

Мы предлагаем:

- Конкуренспособные цены и скидки постоянным клиентам.
- Специальные условия для постоянных клиентов.
- Подбор аналогов.
- Поставку компонентов в любых объемах, удовлетворяющих вашим потребностям.
- Приемлемые сроки поставки, возможна ускоренная поставка.
- Доставку товара в любую точку России и стран СНГ.
- Комплексную поставку.
- Работу по проектам и поставку образцов.
- Формирование склада под заказчика.
- Сертификаты соответствия на поставляемую продукцию (по желанию клиента).
- Тестирование поставляемой продукции.
- Поставку компонентов, требующих военную и космическую приемку.
- Входной контроль качества.
- Наличие сертификата ISO.

В составе нашей компании организован Конструкторский отдел, призванный помогать разработчикам, и инженерам.

Конструкторский отдел помогает осуществить:

- Регистрацию проекта у производителя компонентов.
- Техническую поддержку проекта.
- Защиту от снятия компонента с производства.
- Оценку стоимости проекта по компонентам.
- Изготовление тестовой платы монтаж и пусконаладочные работы.
