

## USB 2.0 A/B Active Repeater Cable (M/M), 50 ft.

MODEL NUMBER: **U042-050**

### Description

The Tripp Lite U042-050 USB 2.0 Hi-Speed A/B Active Repeater Cable (M/M) extends the distance between a USB Type-A device and a USB Type-B device up to 50 feet. Because the USB 2.0 specification limits the distance between devices to just over 16 feet, the U042-050 features a bus-powered signal booster that extends the USB signal's range with no loss in signal quality or performance.

Ideal for connecting a printer, scanner or card reader to a host computer up to 50 feet away, the U042-050 supports data transfer rates of 480 Mbps and provides up to 150mA of power to the connected device (if your device needs more than 150mA of power, it will either need its own power supply or to be connected to a powered USB 2.0 hub, such as Tripp Lite's [U222-007-R](#)). It meets or exceeds USB 2.0 specifications and is backward compatible with previous USB generations.

The U042-050 is plug-and-play with no external power supply, drivers or software required. You can hot-swap connected devices – for instance, unhook your printer and connect a scanner – without having to power down the computer. This active repeater cable works with all major operating systems.

Premium aluminum Mylar foil and tinned copper braid shielding protects your connected devices from EMI/RFI interference. Molded nickel-plated connectors with gold-plated copper contacts ensure excellent conductivity. Integral strain relief ensures the cable and connectors last a long time.

### Features

#### Extends USB Signals Up to 50 ft.

- Bus-powered signal booster extends range with no loss in signal quality or performance
- Ideal for connecting printer, scanner or card reader to computer up to 50 feet away

#### High-Speed Data Transfer for Multimedia Applications

- Supports data transfer rates of 480 Mbps
- Provides up to 150mA of power to connected device

### Highlights

- Bus-powered signal booster extends USB signal range
- Supports data transfer rates up to 480 Mbps
- Provides 150mA of power to connected device
- Plug and play with no power supply, drivers or software needed
- Compatible with all major operating systems

### System Requirements

- USB port and USB-B device (USB 2.0 port and device are necessary to achieve USB 2.0 speeds)
- If connected device requires more than 150mA of power, it will either need its own power supply or to be plugged into a powered USB 2.0 hub (such as Tripp Lite's [U222-007-R](#))
- Mac, Windows, Linux, Sun or any other operating system with a USB port

### Package Includes

- U042-050 USB 2.0 Hi-Speed A/B Active Repeater Cable (M/M), 50 ft.

- Meets or exceeds USB 2.0 specifications
- Backward compatible with previous USB generations

#### **Broad Compatibility**

- Plug and play with no power supply, drivers or software needed
- Compatible with all major operating systems
- Hot-swap devices without powering down computer

#### **Superior Construction for Superior Performance**

- Premium foil and braid shielding protects devices from EMI/RFI interference
- Molded nickel-plated connectors with gold-plated copper contacts ensure excellent conductivity
- Integral strain relief ensures cable and connectors last a long time

## Specifications

<b>INPUT</b>	
Cable Length (ft.)	50
Cable Length (m)	15.2
<b>PHYSICAL</b>	
Color	Black
<b>CONNECTIONS</b>	
Side A - Connector 1	USB A (MALE)
Side B - Connector 1	USB B (MALE)
<b>WARRANTY</b>	
Product Warranty Period (Worldwide)	3-year limited warranty

Компания «Life Electronics» занимается поставками электронных компонентов импортного и отечественного производства от производителей и со складов крупных дистрибьюторов Европы, Америки и Азии.

С конца 2013 года компания активно расширяет линейку поставок компонентов по направлению коаксиальный кабель, кварцевые генераторы и конденсаторы (керамические, пленочные, электролитические), за счёт заключения дистрибьюторских договоров

Мы предлагаем:

- Конкурентоспособные цены и скидки постоянным клиентам.
- Специальные условия для постоянных клиентов.
- Подбор аналогов.
- Поставку компонентов в любых объемах, удовлетворяющих вашим потребностям.
- Приемлемые сроки поставки, возможна ускоренная поставка.
- Доставку товара в любую точку России и стран СНГ.
- Комплексную поставку.
- Работу по проектам и поставку образцов.
- Формирование склада под заказчика.
- Сертификаты соответствия на поставляемую продукцию (по желанию клиента).
- Тестирование поставляемой продукции.
- Поставку компонентов, требующих военную и космическую приемку.
- Входной контроль качества.
- Наличие сертификата ISO.

В составе нашей компании организован Конструкторский отдел, призванный помогать разработчикам, и инженерам.

Конструкторский отдел помогает осуществить:

- Регистрацию проекта у производителя компонентов.
- Техническую поддержку проекта.
- Защиту от снятия компонента с производства.
- Оценку стоимости проекта по компонентам.
- Изготовление тестовой платы монтаж и пусконаладочные работы.
