

## Introduction

### Product Facts

- 10+ Gbps performance
- 100 ohm Impedance for Differential Pair configuration
- 5 pair version offers 26 pairs/10mm [66 differential pairs/inch] fitting within a 25.40 [1.00] card slot pitch
- 4 pair version offers 21 pairs/10mm [53 differential pairs/inch] fitting within a 20.30 [.800] card slot pitch
- 3 pair version offering 16 pairs/10mm [40 differential pairs/inch] fitting within a 16.25 [.625] card slot pitch
- Right angle pin headers (coplanar) in 3 pair, 4 pair, and 5 pair versions
- Reliable, redundant contact design on every signal contact
- Modular system offered in various column versions
- Meets Industry reliability requirements of Bellcore/Telcordia
- Sequencing for ground and signal contacts
- RoHS Compliant

### Future Product Extensions

- Vertical receptacles
- High speed cable assemblies and hardware

The Z-PACK TinMan backplane connector family is a cost-effective solution for customers searching for a high density, high performance backplane interconnect system.

The Z-PACK TinMan connector design follows proven industry backplane convention by offering a fully protected right-angle receptacle for use on daughter-cards where handling damage can be a concern when mating to a vertical male header. This connector permits field repairability at either the module or single pin levels.

Ground contacts positioned within each column of the connector, combined with unique contact lead frame arrangements, enable the Z-PACK TinMan connector to achieve low crosstalk and high through-put performance levels. Reliability is provided with a dual point of contact mating interface and compliant pin interface to the printed circuit board.

### Industry Applications

Ideally designed for cost pressured, high signal density applications requiring interconnection between two printed circuit boards, such as those typically found in server, storage, switch, router, and similar applications. The Z-PACK TinMan connector product family is suited to meet the demands of today's modular system designs by offering a variety of configurations. The product family includes configurations to fit 20.32 [.800] and 25.40 [1.00] card slot spacing.

### Technical Documents

**Product Specification** 108-2303

**Application Specification** 114-13202

**Routing Guide Report** #27GC001-1

### Material and Finish

**Signal Contact** — High Strength Copper Alloy

**Ground Contact** — High Strength Copper Alloy

**Housing** — Liquid Crystal Polymer

**Platings** — Telcordia compliant interface, Nickel underplate

**Compliant Pin Plating** — RoHS Compliant

### Ratings

**Temperature Range** — -65°C to +90°C

**Current Rating** — 0.5 A/contact @ < 30°C T-Rise

**Durability** — 200 cycles

**Dielectric Withstanding Voltage** — 560 VAC

**Operating Voltage** — 250 VAC max.

### Signal Integrity

**Characteristic Impedance** — Differential @ 100 ohms ±10%

**Crosstalk** — Multi-pair differential crosstalk: 2.1% @ 50ps

**Insertion Loss** — -2 dB @ 10 GHz

### Restriction on the use of Hazardous Substances (RoHS)

At Tyco Electronics, we're ready to support your RoHS requirements. We've assessed more than 1.5 million end items/components for RoHS compliance, and issued new part numbers where any change was required to eliminate the restricted materials. Part numbers in this catalog are identified as:

**RoHS Compliant** — Part numbers in this catalog are RoHS Compliant, unless marked otherwise. These products comply with European Union Directive 2002/95/EC as amended 1 January 2006 that restricts the use of lead, mercury, cadmium, hexavalent chromium, PBB, and PBDE in certain electrical and electronic products sold into the EU as of 1 July 2006.

NOTE: For purposes of this Catalog, included within the definition of RoHS Compliant are products that are clearly "Out of Scope" of the RoHS Directive such as hand tools and other non-electrical accessories.

NOTE: Information regarding RoHS compliance is provided based on reasonable inquiry of our suppliers and represents our current actual knowledge based on the information provided by our suppliers. This information is subject to change. For latest compliance status, refer to our website referenced at right.

### Getting the Information You Need

Our comprehensive on-line RoHS Customer Support Center provides a forum to answer your questions and support your RoHS needs. A RoHS FAQ (Frequently Asked Questions) is available with links to more detailed information. You can also submit RoHS questions and receive a response within 24 hours during a normal work week. The Support Center also provides:

- Cross-Reference from Non-compliant to Compliant Products
- Ability to browse RoHS Compliant Products in our on-line catalog
- Downloadable Technical Data Customer Information Presentation
- More detailed information regarding the definitions used above
- So whatever your questions when it comes to RoHS, we've got the answers at [www.tycoelectronics.com/leadfree](http://www.tycoelectronics.com/leadfree)

## Z-PACK TinMan Mid-Plane (Orthogonal) Connector Overview

### Product Facts

- Scalable to 25 Gbps
- 100 ohm impedance for differential pair configuration
- Very low noise
- Outstanding insertion loss through 2 connectors and vias
- Skewless differential pair in a 2-connector system
- Utilizes the same header and receptacle part on both sides of the mid-plane
- Compatible with standard Z-PACK TinMan connectors and accessories
- 4 pair x 4 pair and 6 pair x 6 pair modules available
- Reliable, redundant contact design on all contacts
- Reliable press-fit style termination to PCB
- RoHS compliant

### Applications

The Z-PACK TinMan Mid-plane (orthogonal) connector is ideally designed for very demanding applications involving data rates in excess of 10 Gbps with many interconnections required. Such applications would include the following Telecom/Datacom equipment:

- Switches
- Servers
- Routers
- Storage

The Z-PACK TinMan mid-plane (orthogonal) connector is an extension of the Z-PACK TinMan connector product line, which includes perpendicular and coplanar interconnect solutions in 3 pair, 4 pair, and 5 pair versions.

This connector system is commonly referred to as an orthogonal connector system due to the orthogonal (perpendicular) orientation of the two system boards being connected on the front and rear side. It is built on the same technology and design approach as standard Z-PACK TinMan connectors with the same mating interface and lead-frame geometry.

Superior electrical performance is achieved for several reasons. The front board to

rear board connection through the mid-plane makes the plated through hole (PTH) part of the signal transmission path eliminating the detrimental effects of via stubs. This construction also eliminates the need to route all the high speed signal lines along the backplane minimizing signal loss and significantly improving signal throughput. The wide column spacing establishes a connector footprint with improved impedance and reduced electrical noise. The in-line footprint version also provides ease of trace routing with wide channels and a connector interface compatible with the orthogonal receptacle. This permits the use of the same daughtercard in both mid-plane and backplane configurations.

The benefits are not limited to just signal integrity performance. The thinner mid-plane with fewer layers and significantly less complex routing is inherently less expensive. With trace routing typically limited to power distribution, low speed lines and potentially very few high speed links, the board can be fabricated from a cost effective material without the need to utilize techniques such as counter-boring or back-drilling.

All of this permits the implementation of small to large scale full mesh interconnects with significantly reduced complexity at a lower cost and with improved signal integrity.

6x6 (36 signal pairs)

## Z-PACK TinMan Mid-Plane (Orthogonal) Connector Overview (Continued)

### Noise Table

- Maximum, multiple source crosstalk

### Technical Documents

Product Specification 108-2303

Application Specification 114-13202

Routing Guide Report #27GC002

### Material and Finish

**Signal Contact** — High Strength Copper Alloy

**Ground Contact** — High Strength Copper Alloy

**Housing** — Liquid Crystal Polymer

**Platings** — Telcordia compliant interface, Nickel underplate

**Compliant Pin Plating** — RoHS Compliant

### Ratings

**Temperature Range** — -65°C to +90°C

**Current Rating** — 0.5 A/contact @ < 30°C T-Rise

**Durability** — 200 cycles

**Dielectric Withstanding Voltage** — 560 VAC

**Operating Voltage** — 250 VAC max.

### Signal Integrity

**Characteristic Impedance** — Differential @ 100 ohms ±10%

**Crosstalk** — Multi-pair differential crosstalk: 1.0% @ 50ps

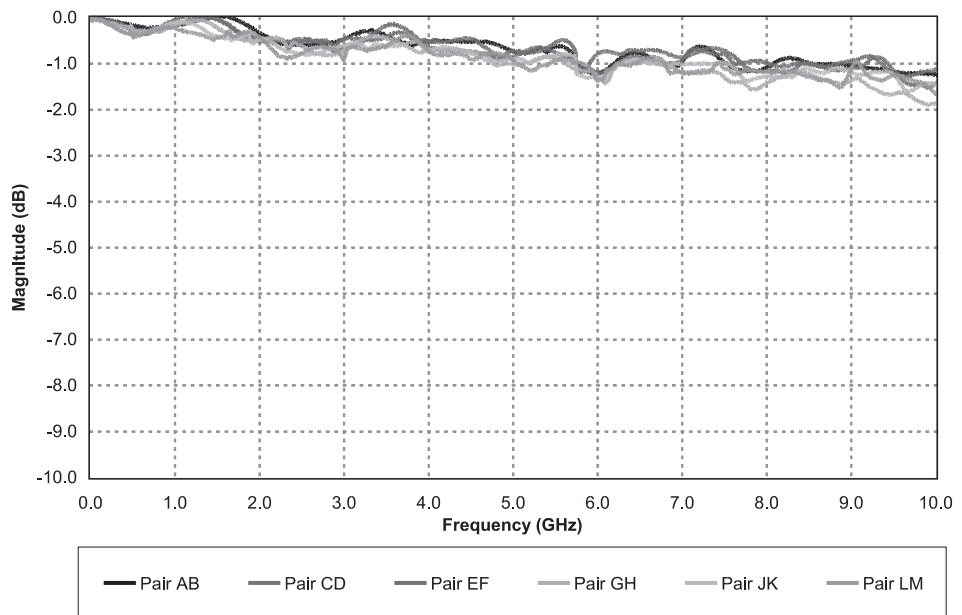

**Insertion Loss** — -2 dB @ 10 GHz

VICTIM	Total Peak Receiver Noise for Recommended Pin-Out
AB3	0.50%
CD3	1.00%
EF3	0.90%
GH3	0.80%
JK3	0.90%
LM3	0.60%

**Note:** Data includes PCB vias of both backplane and daughtercard connectors. Single mated connector pair. 50 ps (20-80%) edge rate.

### Insertion Loss Plot

**Z-PACK TinMan Mid-Plane (Orthogonal) Connector Overview** (Continued)

**Representative Eye Pattern**

- 10.0 Gbps data rate
- 2' -1 PRBS
- Unequalized Signal

**Customer Connector Evaluation Kit**

- Connector characterization
- Available for loan — contact your local Tyco Electronics Sales Engineer
- Time and frequency domain testable
- Testable to 18+ GHz (25+ Gb/s)
- Multiple calibration options
- Convenient SMA interface

**Customer System Evaluation Kit**

## Z-PACK MAX Connector to Z-PACK TinMan Connector Base Part Number Cross Reference\*

Z-PACK MAX Connector Base Part Number	Z-PACK TinMan Connector Base Part Number	Description
1469659	1934218	Receptacle Assembly, 5 pair, Standard, 8 Column
1469660	1934269	Header Assembly, Open Ended, 5 Pair 8 Column
1469680	1934272	Header Assembly, Left Wall, 5 Pair 8 Column
1469680	1934273	Header Assembly, Right Wall, 5 Pair 8 Column
1469681	1934271	Header Assembly, Double Wall, 5 Pair 8 Column
1469687	1934315	Header Assembly, Open Ended, 4 Pair 16 Column
1469693	1934225	Receptacle Assembly, 4 pair, Standard, 16 Column
1469702	1934303	Header Assembly, Left Wall, 4 Pair 8 Column
1469702	1934304	Header Assembly, Right Wall, 4 Pair 8 Column
1469703	1934317	Header Assembly, Left Wall, 4 Pair 16 Column
1469703	1934318	Header Assembly, Right Wall, 4 Pair 16 Column
1469706	1934306	Header Assembly, Double Wall, 4 Pair 8 Column
1469707	1934316	Header Assembly, Double Wall, 4 Pair 16 Column
1469716	1934305	Header Assembly, Open Ended, 4 Pair 8 Column
1469717	1934222	Receptacle Assembly, 4 pair, Standard, 8 Column
1469735	1934349	Right Angle Header Assembly, Open Ended, 5 Pair 8 Column
1469737	1934350	Right Angle Header Assembly, Double Wall, 5 Pair 8 Column
1469753	1934331	Header Assembly, Open Ended, 5 Pair 16 Column
1469754	1934221	Receptacle Assembly, 5 pair, Standard, 16 Column
1469755	1934333	Header Assembly, Left Wall, 5 Pair 16 Column
1469755	1934334	Header Assembly, Right Wall, 5 Pair 16 Column
1469756	1934332	Header Assembly, Double Wall, 5 Pair 16 Column
1469768	1934305	Header Assembly, Open Ended, 4 Pair 8 Column
1469769	1934222	Receptacle Assembly, 4 pair, Standard, 8 Column
1469774	1934311	Header Assembly, Open Ended, 4 Pair 10 Column
1469775	1934224	Receptacle Assembly, 4 pair, Standard, 10 Column
1469784	1934362	4x4 Orthogonal Offset Header Assembly, Double Wall
1469785	1934230	Receptacle Assembly, 4x4, Orthogonal
1469786	1934364	6x6 Orthogonal Offset Header Assembly, Double Wall
1469787	1934231	Receptacle Assembly, 6x6, Orthogonal
1469788	1934311	Header Assembly, Open Ended, 4 Pair 10 Column
1469789	1934224	Receptacle Assembly, 4 pair, Standard, 10 Column
1469793	1934353	Right Angle Header Assembly, Open Ended, 4 Pair 8 Column
1469795	1934354	Right Angle Header Assembly, Double Wall, 4 Pair 8 Column
1469807	1934339	Header Assembly, Open Ended, 3 Pair 10 Column
1469809	1934228	Receptacle Assembly, 3 pair, Standard, 10 Column
1469827	1934339	Header Assembly, Open Ended, 3 Pair 10 Column
1469828	1934228	Receptacle Assembly, 3 pair, Standard, 10 Column
1469829	1934299	Header Assembly, Open Ended, 3 Pair 8 Column
1469831	1934226	Receptacle Assembly, 3 pair, Standard, 8 Column
1469853	1934335	Header Assembly, Open Ended, 3 Pair 6 Column
1469854	1934227	Receptacle Assembly, 3 pair, Standard, 6 Column
1469867	1934340	Header Assembly, Left Wall, 3 Pair 10 Column
1469867	1934341	Header Assembly, Right Wall, 3 Pair 10 Column
1469871	1934357	Right Angle Header Assembly, Open Ended, 3 Pair 10 Column
1469874	1934358	Right Angle Header Assembly, Double Wall, 3 Pair 10 Column
1469935	1934342	Header Assembly, Double Wall, 3 Pair 10 Column
1469945	1934300	Header Assembly, Left Wall, 3 Pair 8 Column
1469945	1934301	Header Assembly, Right Wall, 3 Pair 8 Column
1469946	1934302	Header Assembly, Double Wall, 3 Pair 8 Column
1469949	1934343	Header Assembly, Open Ended, 3 Pair 16 Column
1469950	1934344	Header Assembly, Left Wall, 3 Pair 16 Column
1469950	1934345	Header Assembly, Right Wall, 3 Pair 16 Column
1469951	1934346	Header Assembly, Double Wall, 3 Pair 16 Column
1469955	1934229	Receptacle Assembly, 3 pair, Standard, 16 Column
1469960	1934335	Header Assembly, Open Ended, 3 Pair 6 Column

\*As announced on 6/20/07, Tyco Electronics now offers the Z-PACK TinMan product line as a form, fit and function replacement to the Z-PACK MAX product line. This chart will assist in finding the Z-PACK TinMan connector part number if you have a Z-PACK MAX connector part number.

## Z-PACK MAX Connector to Z-PACK TinMan Connector Base Part Number Cross Reference\* (Continued)

Z-PACK MAX Connector Base Part Number	Z-PACK TinMan Connector Base Part Number	Description
1469961	1934336	Header Assembly, Left Wall, 3 Pair 6 Column
1469961	1934337	Header Assembly, Right Wall, 3 Pair 6 Column
1469962	1934338	Header Assembly, Double Wall, 3 Pair 6 Column

Компания «Life Electronics» занимается поставками электронных компонентов импортного и отечественного производства от производителей и со складов крупных дистрибьюторов Европы, Америки и Азии.

С конца 2013 года компания активно расширяет линейку поставок компонентов по направлению коаксиальный кабель, кварцевые генераторы и конденсаторы (керамические, пленочные, электролитические), за счёт заключения дистрибьюторских договоров

Мы предлагаем:

- Конкурентоспособные цены и скидки постоянным клиентам.
- Специальные условия для постоянных клиентов.
- Подбор аналогов.
- Поставку компонентов в любых объемах, удовлетворяющих вашим потребностям.
- Приемлемые сроки поставки, возможна ускоренная поставка.
- Доставку товара в любую точку России и стран СНГ.
- Комплексную поставку.
- Работу по проектам и поставку образцов.
- Формирование склада под заказчика.
- Сертификаты соответствия на поставляемую продукцию (по желанию клиента).
- Тестирование поставляемой продукции.
- Поставку компонентов, требующих военную и космическую приемку.
- Входной контроль качества.
- Наличие сертификата ISO.

В составе нашей компании организован Конструкторский отдел, призванный помогать разработчикам, и инженерам.

Конструкторский отдел помогает осуществить:

- Регистрацию проекта у производителя компонентов.
- Техническую поддержку проекта.
- Защиту от снятия компонента с производства.
- Оценку стоимости проекта по компонентам.
- Изготовление тестовой платы монтаж и пусконаладочные работы.
