

# **Disc Type Capacitors with Lead**

High Voltage Ceramic Capacitors  
Commercial Grade

CK45 series

Issue date: February 2013

- All specifications are subject to change without notice.
  - Conformity to RoHS Directive: This means that, in conformity with EU Directive 2002/95/EC, lead, cadmium, mercury, hexavalent chromium, and specific bromine-based flame retardants, PBB and PBDE, have not been used, except for exempted applications.
-

# Disc Type Capacitors with Lead

Conformity to RoHS Directive

## High Voltage Ceramic Capacitors Commercial Grade

### CK45 Series

#### FEATURES

- High voltage ceramic capacitors series higher reliability has been achieved through the use of TDK original dielectric and copper for electrode material due to nice matching of the ceramic dielectrics material for copper for electrode.
- These products shall conform to RoHS Directive due to lead(Pb) free of lead wire and internal solder material.
- Compatible with halogen-free external resin coating.

#### OPERATING TEMPERATURE RANGE: -25 to +105°C

(The maximum operating temperature of 105°C includes capacitor self-generated heat of up to 20°C.)

#### PRODUCT IDENTIFICATION

## LIST OF STANDARD LEAD SHAPES

The lead type is indicated by the letter which is the 15th character of the product name.

Example) TDK Product Name: **CK45-B3AD102KYNNNA**

└─N: Lead type (Vertical kink, Short)

|               | Long lead<br>Symbol G | Short lead<br>Symbol N | Taping<br>Symbol V |
|---------------|-----------------------|------------------------|--------------------|
| Vertical kink |                       |                        |                    |

Dimensions in mm

- We recommend using a vertical kink type.
- For bulk products, we recommend a short lead type with the symbol N.

## TAPING DIMENSIONS

### VERTICAL KINK LEAD TYPE

| Item                                 | Symbol         | Dimensions (mm)                               |                |                | Remarks                                              |
|--------------------------------------|----------------|-----------------------------------------------|----------------|----------------|------------------------------------------------------|
|                                      |                | V1                                            | V2             | V3             |                                                      |
| Body diameter                        | D              | Depends on the specification of each product. |                |                |                                                      |
| Body thickness                       | T              | Depends on the specification of each product. |                |                |                                                      |
| Lead-wire diameter                   | ød             | 0.6±0.05                                      | 0.6±0.05       | 0.6±0.05       |                                                      |
| Pitch of component                   | P              | 12.7±1.0                                      | 15.0±1.0       | 30.0±1.0       | Including the slant of body                          |
| Feed hole pitch                      | P <sub>0</sub> | 12.7±0.3                                      | 15.0±0.3       | 15.0±0.3       | Excepting the tape splicing part                     |
| Feed hole center to lead             | P <sub>1</sub> | 3.85±0.7                                      | 3.75±0.7       | 3.75±0.7       |                                                      |
| Feed hole center to component center | P <sub>2</sub> | 6.35±1.3                                      | 7.5±1.3        | 7.5±1.3        |                                                      |
| Lead-to lead distance                | F              | 5+0.8, -0.2                                   | 7.5±0.8        | 7.5±0.8        | Measuring point is bottom kink                       |
| Component alignment                  | Δh             | 0±2.0                                         | 0±2.0          | 0±2.0          | Including the slanting body due to bending lead-wire |
| Tape width                           | W              | 18.0+1.0, -0.5                                | 18.0+1.0, -0.5 | 18.0+1.0, -0.5 |                                                      |
| Adhesive tape width                  | W <sub>0</sub> | 10.0min.                                      | 10.0min.       | 10.0min.       |                                                      |

Компания «Life Electronics» занимается поставками электронных компонентов импортного и отечественного производства от производителей и со складов крупных дистрибьюторов Европы, Америки и Азии.

С конца 2013 года компания активно расширяет линейку поставок компонентов по направлению коаксиальный кабель, кварцевые генераторы и конденсаторы (керамические, пленочные, электролитические), за счёт заключения дистрибьюторских договоров

Мы предлагаем:

- Конкурентоспособные цены и скидки постоянным клиентам.
- Специальные условия для постоянных клиентов.
- Подбор аналогов.
- Поставку компонентов в любых объемах, удовлетворяющих вашим потребностям.
- Приемлемые сроки поставки, возможна ускоренная поставка.
- Доставку товара в любую точку России и стран СНГ.
- Комплексную поставку.
- Работу по проектам и поставку образцов.
- Формирование склада под заказчика.
- Сертификаты соответствия на поставляемую продукцию (по желанию клиента).
- Тестирование поставляемой продукции.
- Поставку компонентов, требующих военную и космическую приемку.
- Входной контроль качества.
- Наличие сертификата ISO.

В составе нашей компании организован Конструкторский отдел, призванный помогать разработчикам, и инженерам.

Конструкторский отдел помогает осуществить:

- Регистрацию проекта у производителя компонентов.
- Техническую поддержку проекта.
- Защиту от снятия компонента с производства.
- Оценку стоимости проекта по компонентам.
- Изготовление тестовой платы монтаж и пусконаладочные работы.
