

## Features

- RoHS compliant\*
- Conductive plastic or cermet
- Linear and audio tapers
- PC board and bushing mount
- Gangable
- Metal bushing and shaft
- Sealed for board washing

## 51/53 - Sealed 1/2 " (12.5 mm) Square Control

| Electrical Characteristics <sup>1</sup>                                                                               | Conductive Plastic          | Cermet                |
|-----------------------------------------------------------------------------------------------------------------------|-----------------------------|-----------------------|
| Standard Resistance Range                                                                                             |                             |                       |
| Linear .....                                                                                                          | 1 K ohms to 1 megohm.....   | 150 ohms to 1 megohm  |
| Audio .....                                                                                                           | 1 K ohms to 1 megohm.....   | 1 K ohms to 1 megohm  |
| Total Resistance Tolerance                                                                                            |                             |                       |
| Linear Tapers .....                                                                                                   | ±10 % or ±20 % .....        | ±10 % or ±5 %         |
| Audio Tapers .....                                                                                                    | ±10 % or ±20 % .....        | ±10 %                 |
| Independent Linearity .....                                                                                           | ±5 % .....                  | ±5 %                  |
| Absolute Minimum Resistance .....                                                                                     | 2 ohms maximum .....        | 2 ohms maximum        |
| Effective Electrical Angle .....                                                                                      | 270 ° ±5 ° .....            | 270 ° ±5 °            |
| Contact Resistance Variation .....                                                                                    | 2 % .....                   | 2 %                   |
| Dielectric Withstanding Voltage (MIL-STD-202 – Method 301)                                                            |                             |                       |
| Sea Level .....                                                                                                       | 1,500 VAC minimum .....     | 1,500 VAC minimum     |
| 70,000 .....                                                                                                          | 500 VAC minimum .....       | 500 VAC minimum       |
| Insulation Resistance .....                                                                                           | 1,000 megohms minimum ..... | 1,000 megohms minimum |
| Power Rating At 70 °C (Derate To 0 At 125 °C)<br>(Voltage Limited By Power Dissipation or 350 VAC, Whichever Is Less) |                             |                       |
| Linear Tapers .....                                                                                                   | 0.5 watt .....              | 1.0 watt              |
| Audio Tapers .....                                                                                                    | 0.25 watt .....             | 0.5 watt              |
| Theoretical Resolution .....                                                                                          | Essentially infinite .....  | Essentially infinite  |

| Environmental Characteristics <sup>1</sup>                   | Conductive Plastic      | Cermet            |
|--------------------------------------------------------------|-------------------------|-------------------|
| Operating Temperature Range .....                            | +1 °C to +125 °C .....  | +1 °C to +125 °C  |

Boldface features are Bourns standard options. All others are available with higher minimum order quantities.

Компания «Life Electronics» занимается поставками электронных компонентов импортного и отечественного производства от производителей и со складов крупных дистрибьюторов Европы, Америки и Азии.

С конца 2013 года компания активно расширяет линейку поставок компонентов по направлению коаксиальный кабель, кварцевые генераторы и конденсаторы (керамические, пленочные, электролитические), за счёт заключения дистрибьюторских договоров

Мы предлагаем:

- Конкурентоспособные цены и скидки постоянным клиентам.
- Специальные условия для постоянных клиентов.
- Подбор аналогов.
- Поставку компонентов в любых объемах, удовлетворяющих вашим потребностям.
- Приемлемые сроки поставки, возможна ускоренная поставка.
- Доставку товара в любую точку России и стран СНГ.
- Комплексную поставку.
- Работу по проектам и поставку образцов.
- Формирование склада под заказчика.
- Сертификаты соответствия на поставляемую продукцию (по желанию клиента).
- Тестирование поставляемой продукции.
- Поставку компонентов, требующих военную и космическую приемку.
- Входной контроль качества.
- Наличие сертификата ISO.

В составе нашей компании организован Конструкторский отдел, призванный помогать разработчикам, и инженерам.

Конструкторский отдел помогает осуществить:

- Регистрацию проекта у производителя компонентов.
- Техническую поддержку проекта.
- Защиту от снятия компонента с производства.
- Оценку стоимости проекта по компонентам.
- Изготовление тестовой платы монтаж и пусконаладочные работы.
