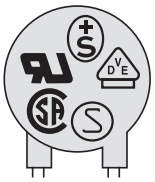
AC Line Rated Disc Capacitors

X & Y EMI/RFI FILTER TYPES: ACROSS-THE-LINE, LINE-BY-PASS, ANTENNA COUPLING



Vishay Cera-Mite AC Line Rated Discs are rugged, high voltage capacitors specifically designed and tested for use on 125 Volt through 600 Volt AC power sources. Certified to meet demanding X & Y type worldwide safety agency requirements, they are applied in across-the-line, line-to-ground, and line-by-pass filtering applications. Vishay Cera-Mite offers the most complete selection in the industry—six product families—exactly tailored to your needs.

- Worldwide Safety Agency Recognition
  - Underwriters Laboratories - UL1414 & UL1283
  - Canadian Standards Association - CSA 22.2 No. 1 & No. 8
  - European EN132400 to IEC 384-14 Second Edition
- Required In AC Power Supply and Filter Applications
- Six Families Tailored To Specific Industry Requirements
- Complete Range of Capacitance Values

AC LINE RATED CERAMIC CAPACITOR SPECIFICATIONS

PERFORMANCE DATA / SERIES:	440L	30LV	30LVS	25Y	125L	20VL
Application Voltage Range (Vrms 50/60 Hz) (Note 1)	250/500	300/400	250/400	250/400	250	250
Dielectric Strength (Vrms 50/60 Hz for 1 minute)	4000	2500	2500	2500	2000	1250
Dissipation Factor (Maximum)	2%					
Insulation Resistance (Minimum)	1000 ΩF					
Mechanical Data	Service Temperature 125°C Maximum; Coating Material per UL94V0					
Temperature Characteristics	Y5U	Y5U	Y5U	Y5S	Y5V	Y5V

Note 1

Voltage Ratings: All ratings are manufacturer's rating.

- Part markings are governed by agency rules and customer requirements.
- Parts are marked 250 VAC unless otherwise requested.

Note 2

UL1414 Across-The-Line, Antenna Coupling, and Line-By-Pass Capacitors:

- Across-The-Line—A capacitor connected either across a supply circuit or between one side of a supply circuit and a conductive part that may be connected to earth ground.
- Antenna-Coupling—A capacitor connected from an antenna terminal to circuits within an appliance.
- Line-By-Pass—A capacitor connected between one side of a supply circuit and an accessible conductive part.

Note 3

IEC 384-14 Subclass Y Capacitors:

- A capacitor of a type suitable for use in situations where failure of the capacitor could lead to danger of electric shock.
- Class Y capacitors are divided into sub- classes based on type of insulation bridged and voltage ranges.
- For definitions of basic, supplementary, double and reinforced insulation, see IEC Publication 536.
- Subclass Y capacitors may be used in applications which require a Subclass X rating.

Note 4

IEC 384-14 Subclass X Capacitors:

- A capacitor of a type suitable for use in situations where failure of the capacitor would not lead to danger of electric shock.
- Class X capacitors are divided into subclasses according to the peak impulse test voltage superimposed on the main voltage

Note 5

AC Leakage Current:

- For all Series (except 125L) - AC Leakage Current (mA) specified at 250 Vrms, 60 Hz.
- For 125L Series - AC Leakage Current (mA) specified at 125 Vrms, 60Hz.

Note 6

Alternate Lead Spacings of 7.5mm and 10mm are available bulk or tape & reel.

- European Required Minimum Lead Clearance (Prevents Use of Inside Crimp) .315" (8mm) on 440L Series; 0.118" (3mm) on all other series.

			Note 5				Note 6	

* 30LVS15 not available with UL 1414 recognition.

Fig 7 Optional 3-Leaded Style

An optional 3-leaded construction is available. It consists of a single capacitor with the two outside leads attached to one electrode, and the center lead attached to the other electrode. Used in feed-thru or line-to-ground applications, it allows a short ground lead for enhanced high frequency performance.

ООО «ЛайфЭлектроникс» **“LifeElectronics” LLC**

ИНН 7805602321 КПП 780501001 Р/С 40702810122510004610 ФАКБ "АБСОЛЮТ БАНК" (ЗАО) в г.Санкт-Петербурге К/С 30101810900000000703 БИК 044030703

Компания «Life Electronics» занимается поставками электронных компонентов импортного и отечественного производства от производителей и со складов крупных дистрибьюторов Европы, Америки и Азии.

С конца 2013 года компания активно расширяет линейку поставок компонентов по направлению коаксиальный кабель, кварцевые генераторы и конденсаторы (керамические, пленочные, электролитические), за счёт заключения дистрибьюторских договоров

Мы предлагаем:

- *Конкурентоспособные цены и скидки постоянным клиентам.*
- *Специальные условия для постоянных клиентов.*
- *Подбор аналогов.*
- *Поставку компонентов в любых объемах, удовлетворяющих вашим потребностям.*

- *Приемлемые сроки поставки, возможна ускоренная поставка.*
- *Доставку товара в любую точку России и стран СНГ.*
- *Комплексную поставку.*
- *Работу по проектам и поставку образцов.*
- *Формирование склада под заказчика.*

- *Сертификаты соответствия на поставляемую продукцию (по желанию клиента).*
- *Тестирование поставляемой продукции.*
- *Поставку компонентов, требующих военную и космическую приемку.*
- *Входной контроль качества.*
- *Наличие сертификата ISO.*

В составе нашей компании организован Конструкторский отдел, призванный помогать разработчикам, и инженерам.

Конструкторский отдел помогает осуществить:

- *Регистрацию проекта у производителя компонентов.*
- *Техническую поддержку проекта.*
- *Защиту от снятия компонента с производства.*
- *Оценку стоимости проекта по компонентам.*
- *Изготовление тестовой платы монтаж и пусконаладочные работы.*
