

# Data Sheet

## FlatPAC™

### 50 to 600 Watts Autoranging AC-DC Switchers

#### Features

- RoHS compliant (VE versions)
- Microcontroller architecture
- Inputs: 115/230 Vac autoranging
- Meets FCC Part 15, EN55022, Class B conducted emissions
- 80 – 90% efficiency
- Any output: 1 to 95 Vdc
- Module enable/disable (except LU series)
- UL, TÜV, CE marked
- Remote sense and current limit
- BUS OK and AC OK (except LU series)
- 40 ms ride-through time
- OVP and thermal shutdown
- 1 output; up to 200 W
- 1 or 2 outputs; up to 400 W
- 1, 2, or 3 outputs; up to 600 W

#### Product Highlights

If you're looking for the convenience of a complete, low profile, agency-approved switching power supply, look no further. The FlatPAC combines Vicor's workhorse VI-200 family of DC-DC converters with a modular package and front-end subassembly to provide from 50 to 600 W of output power from one to three outputs.

A flat plate heat sink for use in conduction cooled applications may be specified as an alternate to the standard finned version by adding "CC" to the end of the model number.

Vicor's FlatPAC is also available with a current controlled output using BatMod converter modules of 12, 24, or 48 Vdc outputs. This option is specified by appending "BM" or "BC" (for conduction cooled versions) to the end of the FlatPAC model number.

**Mixing VI-200 and BatMods in a single FlatPAC is not permissible.**

The FlatPAC's contemporary design allows us to configure your order quickly and provide rapid turnaround on standard models. It is truly a complete power solution, enabling you to spend more time designing your system and less time worrying about how to power it.

#### Configuration Chart

#### • Output Voltage

|           |           |            |            |          |          |
|-----------|-----------|------------|------------|----------|----------|
| Z = 2 V   | W = 5.5 V | M = 10 V   | N = 18.5 V | K = 40 V | D = 85 V |
| Y = 3.3 V | V = 5.8 V | 1 = 12 V   | 3 = 24 V   | 4 = 48 V | B = 95 V |
| 0 = 5 V   | T = 6.5 V | P = 13.8 V | L = 28 V   | H = 52 V |          |
| X = 5.2 V | R = 7.5 V | 2 = 15 V   | J = 36 V   | F = 72 V |          |

#### • Product Grade Temps. °C

| Grade | Operating  | Storage     |
|-------|------------|-------------|
| E =   | 0 to +85   | -20 to +100 |
| C =   | 0 to +85   | -20 to +100 |
| I =   | -30 to +85 | -55 to +100 |

Temperatures apply to product case.

#### • Output Power/Current

| V <sub>OUT</sub> ≥ 5 V | V <sub>OUT</sub> < 5 V |
|------------------------|------------------------|
| Y = 50 W               | Y = 10 A               |
| X = 75 W               | X = 15 A               |
| W = 100 W              | W = 20 A               |
| V = 150 W              | V = 30 A               |
| U = 200 W              | U = 40 A               |

#### • Output Power/Current

| V <sub>OUT</sub> ≥ 5 V | V <sub>OUT</sub> < 5 V |
|------------------------|------------------------|
| W = 100 W              | W = 20 A               |
| V = 150 W              | V = 30 A               |
| U = 200 W              | U = 40 A               |
| S = 300 W              | S = 60 A               |
| Q = 400 W              | Q = 80 A               |

#### • Output Power/Current

| V <sub>OUT</sub> ≥ 5 V | V <sub>OUT</sub> < 5 V |
|------------------------|------------------------|
| S = 300 W              | S = 60 A               |
| P = 450 W              | P = 90 A               |
| M = 600 W              | M = 120 A              |

#### • Options

|                               |             |                        |
|-------------------------------|-------------|------------------------|
| BC = BatMod/Conduction Cooled | BM = BatMod | CC = Conduction Cooled |
|-------------------------------|-------------|------------------------|

## SPECIFICATIONS

(typical at 25°C, nominal line and 75% load, unless otherwise specified)

### ■ INPUT SPECIFICATIONS

| Parameter  | Min | Typ                | Max  | Unit | Notes                         |

| Electrostatic discharge                 | IEC 61000-4-2: 1995, Level 4; ±8 kV Contact, ± 15 kV Air Discharge   |
| RF radiated immunity, E-field           | IEC 61000-4-3: 1997; 80 MHz to 1.0 GHz, 3 V/M, CW                    |
| Electrical fast transients/burst        | EN 61000-4-4: 1995, Level 3; ±2 kV,                                  |
| Surge immunity                          | EN 61000-4-5: 1996 Class 3; ±2 kV Line to Ground, ±1 kV Line to Line |
| RF conducted immunity                   | IEC 61000-4-6: 1996, class 3, 10 Vrms, 150 kHz to 80 MHz             |
| Power frequency magnetic field immunity | IEC 61000-4-8: 1994, 30 to 300 A/M, 50Hz                             |
| Voltage dips and interrupts             | IEC 61000-4-11: 1994   |

<sup>1</sup> 10 V, 12 V and 15 V outputs, trim range ± 10%. Consult factory for wider trim range.

<sup>2</sup> Output voltages of 5 V or less incorporate foldback current limiting, outputs greater than 5 V incorporate straight line current limiting.

<sup>3</sup> For MU, PU series, multiply value by 2; for NU, QU, RU series, multiply value by 3.

## **Warranty**

Vicor products are guaranteed for two years from date of shipment against defects in material or workmanship when in normal use and service. This warranty does not extend to products subjected to misuse, accident, or improper application or maintenance. Vicor shall not be liable for collateral or consequential damage. This warranty is extended to the original purchaser only.

EXCEPT FOR THE FOREGOING EXPRESS WARRANTY, VICOR MAKES NO WARRANTY, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

Vicor will repair or replace defective products in accordance with its own best judgement. For service under this warranty, the buyer must contact Vicor to obtain a Return Material Authorization (RMA) number and shipping instructions. Products returned without prior authorization will be returned to the buyer. The buyer will pay all charges incurred in returning the product to the factory. Vicor will pay all reshipment charges if the product was defective within the terms of this warranty.

Information published by Vicor has been carefully checked and is believed to be accurate; however, no responsibility is assumed for inaccuracies. Vicor reserves the right to make changes to any products without further notice to improve reliability, function, or design. Vicor does not assume any liability arising out of the application or use of any product or circuit; neither does it convey any license under its patent rights nor the rights of others. Vicor general policy does not recommend the use of its components in life support applications wherein a failure or malfunction may directly threaten life or injury. Per Vicor Terms and Conditions of Sale, the user of Vicor components in life support applications assumes all risks of such use and indemnifies Vicor against all damages.

## **Vicor's comprehensive line of power solutions includes high density AC-DC and DC-DC modules and accessory components, fully configurable AC-DC and DC-DC power supplies, and complete custom power systems.**

Information furnished by Vicor is believed to be accurate and reliable. However, no responsibility is assumed by Vicor for its use. Vicor components are not designed to be used in applications, such as life support systems, wherein a failure or malfunction could result in injury or death. All sales are subject to Vicor's Terms and Conditions of Sale, which are available upon request.

**Specifications are subject to change without notice.**

## **Intellectual Property Notice**

Vicor and its subsidiaries own Intellectual Property (including issued U.S. and Foreign Patents and pending patent applications) relating to the products described in this data sheet. Interested parties should contact Vicor's Intellectual Property Department.

Компания «Life Electronics» занимается поставками электронных компонентов импортного и отечественного производства от производителей и со складов крупных дистрибьюторов Европы, Америки и Азии.

С конца 2013 года компания активно расширяет линейку поставок компонентов по направлению коаксиальный кабель, кварцевые генераторы и конденсаторы (керамические, пленочные, электролитические), за счёт заключения дистрибьюторских договоров

Мы предлагаем:

- Конкурентоспособные цены и скидки постоянным клиентам.
- Специальные условия для постоянных клиентов.
- Подбор аналогов.
- Поставку компонентов в любых объемах, удовлетворяющих вашим потребностям.
- Приемлемые сроки поставки, возможна ускоренная поставка.
- Доставку товара в любую точку России и стран СНГ.
- Комплексную поставку.
- Работу по проектам и поставку образцов.
- Формирование склада под заказчика.
- Сертификаты соответствия на поставляемую продукцию (по желанию клиента).
- Тестирование поставляемой продукции.
- Поставку компонентов, требующих военную и космическую приемку.
- Входной контроль качества.
- Наличие сертификата ISO.

В составе нашей компании организован Конструкторский отдел, призванный помогать разработчикам, и инженерам.

Конструкторский отдел помогает осуществить:

- Регистрацию проекта у производителя компонентов.
- Техническую поддержку проекта.
- Защиту от снятия компонента с производства.
- Оценку стоимости проекта по компонентам.
- Изготовление тестовой платы монтаж и пусконаладочные работы.
