Dimensional Drawings

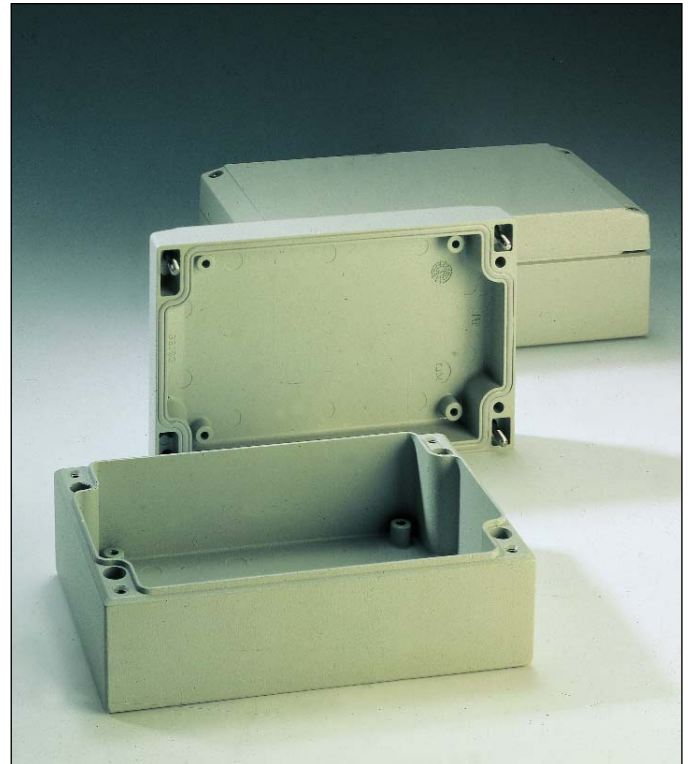

This image shows a single sheet of white paper with horizontal blue or grey ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

Rose+Bopla's **Aluform Enclosures** are stylish, aluminum die-cast housings specifically designed for rugged electronic instrumentation applications.

Aluform Watertight Enclosures

Aluform enclosures feature an attractive beveled lid and are designed with a lower profile height than Rose+Bopla's standard 01 series housings. Internal mounting bosses in the base and lid provide convenience for component installation. New hinges, and one-piece external brackets are available as options.

An Aluform enclosure includes a powdercoat painted die-cast base and lid, captive stainless steel lid screws and a polyurethane gasket as the standard configuration. The unpainted version comes with a neoprene gasket.
