

## Type 23 Series

### Key Features

- Versatile design can be customised to suit your requirements
- 0.4 Watt at 40°C
- Die Cast Metal Bush Available
- Insulated Bush Available
- Insulated Shafts up to 50mm
- Eyelet or PC Terminations
- Rugged Construction
- Mounting Bracket
- Audio Laws Available
- Dual Gang and Dual Concentric Styles

A popular range of 20mm control potentiometers, the type 23 series can be tailored to suit more specific requirements. The potentiometers are available with printed carbon resistance element, choice of bush lengths in metal or plastic and insulated shafts up to 50mm in length. In addition, approved mains and low current switches are available as standard options.

### Characteristics - Electrical

|                                   |   |
|-----------------------------------|---|
| <b>Resistance Range (Law):</b>    | 1K to 1M (Linear)<br>4K7 to 470K (Non Linear) |
| <b>Resistance Values:</b>         | 1, 2.2 and 4.7 per decade                     |
| <b>Resistance Tolerance:</b>      | ± 20% (± 10% by selection)                    |
| <b>Rated Dissipation at 40°C:</b> | 0.4W (Linear), 0.2W (Non Linear)              |
| <b>Limiting Element Voltage:</b>  | 500V DC or AC RMS                             |
| <b>Electrical Rotation:</b>       | 267° without switch, 232° with switch         |
| <b>Terminal Resistance:</b>       | 5 Ohms maximum                                |
| <b>Noise (ENR):</b>               | 2% maximum (Linear), 3% maximum (Non Linear)  |
| <b>Insulation Resistance:</b>     | 4G minimum                                    |
| <b>Voltage Proof:</b>             | 1000 V AC peak                                |

### Characteristics - Mechanical

|                             |                 |
|-----------------------------|-----------------|
| <b>Operating Torque:</b>    | 15 mNm maximum  |
| <b>Mechanical Rotation:</b> | 300°            |
| <b>End Stop Torque:</b>     | 800 mNm maximum |

### Characteristics - Environmental

|   |   |
|---|---|
| <b>Limits of Resistance Change:</b>               | 15% (After 1000 hours endurance)          |
| <b>Operating Temperature Range:</b>               | -25°C to +70°C                            |
| <b>Temperature Characteristics of Resistance:</b> | 5% ( -55°C to 125°C )                     |
| <b>Bump Severity:</b>                             | 390m/s <sup>2</sup> , 4000 Bumps          |
| <b>Vibration Severity:</b>                        | 10 - 500 Hz, 0.75mm or 98m/s <sup>2</sup> |
| <b>Climatic Category:</b>                         | 8 days @ 36°C 82% RH R < 15%              |
| <b>Mechanical Endurance:</b>                      | 15000 Operations (minimum)                |

## Type 23 Series

### DIY Design

The 23 Series can be customised to suit your individual requirements with features such as detent action, track centre tap etc.

Please call our technical sales team to discuss variations on these 20mm diameter devices.

Компания «Life Electronics» занимается поставками электронных компонентов импортного и отечественного производства от производителей и со складов крупных дистрибьюторов Европы, Америки и Азии.

С конца 2013 года компания активно расширяет линейку поставок компонентов по направлению коаксиальный кабель, кварцевые генераторы и конденсаторы (керамические, пленочные, электролитические), за счёт заключения дистрибьюторских договоров

Мы предлагаем:

- Конкурентоспособные цены и скидки постоянным клиентам.
- Специальные условия для постоянных клиентов.
- Подбор аналогов.
- Поставку компонентов в любых объемах, удовлетворяющих вашим потребностям.
- Приемлемые сроки поставки, возможна ускоренная поставка.
- Доставку товара в любую точку России и стран СНГ.
- Комплексную поставку.
- Работу по проектам и поставку образцов.
- Формирование склада под заказчика.
- Сертификаты соответствия на поставляемую продукцию (по желанию клиента).
- Тестирование поставляемой продукции.
- Поставку компонентов, требующих военную и космическую приемку.
- Входной контроль качества.
- Наличие сертификата ISO.

В составе нашей компании организован Конструкторский отдел, призванный помогать разработчикам, и инженерам.

Конструкторский отдел помогает осуществить:

- Регистрацию проекта у производителя компонентов.
- Техническую поддержку проекта.
- Защиту от снятия компонента с производства.
- Оценку стоимости проекта по компонентам.
- Изготовление тестовой платы монтаж и пусконаладочные работы.
