

## VARIOSUB D-SUB 9 Contact Inserts, Sleeve Housings

---

VARIOSUB is a range of plug connectors specially designed for signal and data technology in an industrial environment with high degrees of protection, temperatures and mechanical stress. The range is characterized by the simple Push-Pull locking mechanism, use of conventional D-SUB contact inserts, IP 67 protection and EMC protection.

The VARIOSUB housings offer the space and time-saving Push-Pull locking, which snaps in with a noticeable click. Two integrated lamellar cable screw connections for cable diameters of 3-10 mm provide high cable strain relief.

When locked, the housings fulfill the requirements of IP 67 protection, and require only little operating force thanks to a special profile gasket.

Red snap-in profiles offer up to 16 coding possibilities to avoid incorrect plugging. Marker labeling is also provided for.

Simple logistics due to the small number of individual components and high functionality of the housings help to save costs and increase availability. Mounting flanges on the panel mounting base accept the contact inserts. This allows internal and external wall mounting of the contact inserts.

The male and female inserts in D-SUB 9 format enable 9 data lines and the cable shield to be connected. The connection points are clearly numbered. This facilitates any start-up under field conditions.

Industrial connectors are available for the sleeve and mounting side. They are made with screw connection, for soldering onto printed circuit boards, with a flat-ribbon cable connection and for crimp contacts.

For currents up to 40 A or in combination with signal lines, two versions are available as male and female connectors. The use of these plug connectors saves space on the inside of the device. The contacts are equipped with U-grooves for manual solder connection and cover the maximum possible cross section range.

## Contact Inserts with High Current Contacts

### Solder Connection

Description	Type	Order No.	Pcs./Pkt.
<b>Male contact carrier,</b> for power contacts, 2-pos.	VS-09-ST-DSUB-2P	16 88 41 8	10
<b>Female contact carrier,</b> for power contacts, 2-pos.	VS-09-BU-DSUB-2P	16 88 42 1	10
<b>Accessories</b>			
<b>Male power contact for 20 A,</b> with U-groove solder connection	VS-ST-LK-3,6/22,4/2,6	16 88 24 3	30
<b>Female power contact for 20 A,</b> with U-groove solder connection	VS-BU-LK-3,6/22,8/2,6	16 88 25 6	30
<b>Male power contact for 40 A,</b> with U-groove solder connection	VS-ST-LK-3,6/22,4/4,6	16 88 26 9	30
<b>Female power contact for 40 A,</b> with U-groove solder connection	VS-BU-LK-3,6/22,8/4,6	16 88 27 2	30
<b>Technical data</b>			
<b>Mechanical data</b>			
Insertion/withdrawal cycles		≥ 500	
<b>Material and surfaces</b>			
Insulating body		PBTP GV (UL 94 V0)	
Housing		Steel	
Housing surface		Tin-plated	
Contact material		Cu alloy	
Contact surface		0.8 μm gold over nickel	
<b>Electrical data</b>			
Max. amperage, power contacts	[A]	20 or 40	
Operating voltage	[V]	125	
Contact resistance per contact pair	[mΩ]	≤ 2.5	
Insulation resistance	[MΩ]	≥ 5000	
Specific contact resistance	[Ωcm]	10 <sup>16</sup>	
Specific internal insulation resistance	[KV/mm]	50	
<b>Thermal and climatic data</b>			
Temperature range	[°C]	- 20 to + 80	

**Note:**

The power contacts must be ordered separately since they are not included in the scope of supply of the contact carriers of combi contact inserts. One female and one male contact each must be mounted in the VS-09-ST-DSUB-2P and VS-09-BU-DSUB-2P contact carriers.

Компания «Life Electronics» занимается поставками электронных компонентов импортного и отечественного производства от производителей и со складов крупных дистрибьюторов Европы, Америки и Азии.

С конца 2013 года компания активно расширяет линейку поставок компонентов по направлению коаксиальный кабель, кварцевые генераторы и конденсаторы (керамические, пленочные, электролитические), за счёт заключения дистрибьюторских договоров

Мы предлагаем:

- Конкуренеспособные цены и скидки постоянным клиентам.
- Специальные условия для постоянных клиентов.
- Подбор аналогов.
- Поставку компонентов в любых объемах, удовлетворяющих вашим потребностям.
- Приемлемые сроки поставки, возможна ускоренная поставка.
- Доставку товара в любую точку России и стран СНГ.
- Комплексную поставку.
- Работу по проектам и поставку образцов.
- Формирование склада под заказчика.
- Сертификаты соответствия на поставляемую продукцию (по желанию клиента).
- Тестирование поставляемой продукции.
- Поставку компонентов, требующих военную и космическую приемку.
- Входной контроль качества.
- Наличие сертификата ISO.

В составе нашей компании организован Конструкторский отдел, призванный помогать разработчикам, и инженерам.

Конструкторский отдел помогает осуществить:

- Регистрацию проекта у производителя компонентов.
- Техническую поддержку проекта.
- Защиту от снятия компонента с производства.
- Оценку стоимости проекта по компонентам.
- Изготовление тестовой платы монтаж и пусконаладочные работы.
