

Mini BNC Connectors, 75 Ohm

Product Facts

- Bayonet locking coupling mechanism
- 40% more interconnects in the same area
- Compatible with TROMPETER tooling
- Ideal for telecommunications and broadband applications

Tyco Electronics introduces the Mini BNC series of RF connectors to meet the growing demand for next generation telecommunications and broadband applications where higher connector densities are needed. Preserving the characteristics that have made the standard BNC so popular, the Mini BNC offers the same high performance currently found in standard Tyco Electronics BNC series, but offers 40% more interconnects in the same area.

The Mini BNC offering is an excellent fit for 75 Ohm systems, offering 500 mating cycles, electrical performance through 2 GHz, and is completely interchangeable with competitive miniature BNC offerings. Tyco Electronics' Mini BNC product offers the same advantage of the bayonet locking mechanism as our standard BNC, allowing quicker connect and disconnects than standard

threaded interfaces. It uses standard BNC installation tooling meaning there is no need for retraining of field telco installers, and it utilizes the same PCB footprint on the jack side, providing a drop in replacement for DS3 telco applications.

Mini BNC connector configurations currently available include PCB, panel mount, and flexible cable. Other options can be reviewed as well, including additional cable sizes, adapters, PCB surface mounting, and tape and reel packaging. Call your local sales office or authorized distributor for additional information or samples of the Mini BNC connector series.

Tyco Electronics is a leading supplier of RF and Microwave connectors and cable assemblies, and provides advanced technology products from well known and industry leading brands, including AMP and M/A-COM.

Material and Finish

Shells, Bodies, Mtg Nuts — Brass, nickel plated

Washers — Stainless Steel, nickel plated

Ferrule — Copper or Brass, tin plated

Center Contacts — Phos Bronze and Brass, gold plated

Dielectrics — PTFE

Electrical Characteristics

Frequency — DC – 2 GHz

Nominal Impedance — 75 ohms

Voltage Rating — 300 Volts (VRMS maximum) @ Sea Level

VSWR —

1.10 max to 500 MHz
(Return Loss -26.4 dB)

1.16 max to 1 GHz
(Return Loss -22.6 dB)

Insulation Resistance —
1,000 megohms minimum

Dielectric Withstanding Voltage —
1,000 Volts (VRMS maximum) @
Sea Level

Contact Resistance —
12 milliohms maximum

Mechanical Characteristics

Connector Durability —
500 mating cycles

Force to Engage —
7 pounds maximum

Force to Disengage —
1 pound minimum

Center Contact Retention —
2 pounds minimum

Cable Retention —
20 pounds minimum

Vibration — EIA-364-28,
Test Condition VII, Condition D

Shock — EIA-364-27, Method H

Environmental Characteristics

Temperature Rating —
-40 to +85°C

Moisture Resistance — EIA-364-31,
Method II, Condition C

Thermal Shock — EIA-364-32

Note: Performance specifications are typical, but may not apply to all connector types.

Related Product Data

Product Specification — 108-2159

Sample Kit — 1773042

Компания «Life Electronics» занимается поставками электронных компонентов импортного и отечественного производства от производителей и со складов крупных дистрибьюторов Европы, Америки и Азии.

С конца 2013 года компания активно расширяет линейку поставок компонентов по направлению коаксиальный кабель, кварцевые генераторы и конденсаторы (керамические, пленочные, электролитические), за счёт заключения дистрибьюторских договоров

Мы предлагаем:

- Конкурентоспособные цены и скидки постоянным клиентам.
- Специальные условия для постоянных клиентов.
- Подбор аналогов.
- Поставку компонентов в любых объемах, удовлетворяющих вашим потребностям.
- Приемлемые сроки поставки, возможна ускоренная поставка.
- Доставку товара в любую точку России и стран СНГ.
- Комплексную поставку.
- Работу по проектам и поставку образцов.
- Формирование склада под заказчика.
- Сертификаты соответствия на поставляемую продукцию (по желанию клиента).
- Тестирование поставляемой продукции.
- Поставку компонентов, требующих военную и космическую приемку.
- Входной контроль качества.
- Наличие сертификата ISO.

В составе нашей компании организован Конструкторский отдел, призванный помогать разработчикам, и инженерам.

Конструкторский отдел помогает осуществить:

- Регистрацию проекта у производителя компонентов.
- Техническую поддержку проекта.
- Защиту от снятия компонента с производства.
- Оценку стоимости проекта по компонентам.
- Изготовление тестовой платы монтаж и пусконаладочные работы.
