Target Data Sheet

Base Board for 2SC0435T SCALE-2 driver for 1700V IGBT modules or MOSFETs with an electrical interface for 2-level, 3-level and multilevel converter topologies with paralleling capability

Abstract

The 2BB0435T is a Base Board based on the SCALE-2 driver core 2SC0435T designed to drive almost all available 1700V IGBT modules like 62mm IGBT modules, 130mm x 140mm IGBT modules and others. The Base Board features an electrical interface with a built-in DC/DC power supply.

The turn-on and turn-off gate resistors of both channels are not assembled in order to provide maximum flexibility. They must be assembled by the user before start of operation. Please refer to "Description & Application Manual for 2BB0435T Base Boards" for more information.

For drivers adapted to various types of high-power and high-voltage IGBT modules, refer to

Footnotes to the Key Data

- 1) If the specified value is exceeded, this indicates a Base Board overload. It should be noted that the Base Board is not protected against overload.
- 2) If the specified value is exceeded, this indicates a Base Board overload. It should be noted that the Base Board is not protected against overload. From $70^{\circ}C$ to $85^{\circ}C$, the maximum permissible output power can be linearly interpolated from the given data.
- 3) This limit is due to active clamping. Refer to the "Description & Application Manual for 2BB0435T Base Boards".
- 4) Resulting pulse width of the direct output of the gate drive unit for short-circuit type I (excluding the delay of the gate resistors)
- 5) Factory set value. The blocking time can be reduced with an external resistor. Refer to the "Description & Application Manual for 2BB0435T Base Boards".
- 6) Jitter measurements are performed with input signals INx switching between 0V and 15V referred to GND, with a corresponding rise time and fall time of 8ns.
- 7) The gate resistors are not assembled on this Base Board. They must be assembled by the user. Please refer to "Description & Application Manual for 2BB0435T Base Boards".
