

### Description

- The 600R Series is designed to protect against power fault events typically found in telecom applications. This series is designed to be used in applications that need to meet the requirements of GR-1089-CORE and UL60950/EN60950/IEC60950. These resettable devices also help to meet the requirements of ITU K.20, K.21 and K.44.

### Features

- 0.15 – 0.16A hold current range, 60VDC operating voltage
- 600VAC interrupt rating
- Fast time-to-trip
- Binned and sorted narrow resistance ranges available
- RoHS compliant, Lead-Free and Halogen-Free\*

### Applications

- Secondary overcurrent protection for:
- Central Office Equipment (CO)
  - Customer Premises Equipment (CE)
  - Alarm systems
  - Set Top Boxes (STB)
  - Voice over IP (VOIP)
  - Subscriber Line Interface Circuit (SLIC)

### Agency Approvals

I<sub>hold</sub> = Hold current: maximum current device will pass without tripping in 23°C still air.  
 I<sub>trip</sub> = Trip current: minimum current at which the device will trip in 23°C still air.  
 V<sub>int</sub> = Maximum voltage the device can withstand without damage at rated current (I<sub>max</sub>)  
 V<sub>op</sub> = The device regular operation voltage  
 I<sub>max</sub> = Maximum fault current device can withstand without damage at rated voltage (V<sub>max</sub>)  
 P<sub>d</sub> = Power dissipated from device when in the tripped state at 23°C still air.

R<sub>min</sub> = Minimum resistance of device in initial (un-soldered) state.  
 R<sub>typ</sub> = Typical resistance of device in initial (un-soldered) state.  
 R<sub>1max</sub> = Maximum resistance of device at 20°C measured one hour after tripping.  
**Caution:** Operation beyond the specified rating may result in damage and possible arcing and flame.

\* Effective February 11, 2010 onward, all 600R PTC products will be manufactured Halogen Free (HF). Existing Non-Halogen Free 600R PTC products may continue to be sold, until supplies are depleted. This change will have no effect on 600R product specifications or performance.

**Temperature Derating**

| Part Number | Ambient Operation Temperature |       |      |      |       |       |      |
|-------------|-------------------------------|-------|------|------|-------|-------|------|
|             | -40°C                         | -20°C | 0°C  | 23°C | 40°C  | 60°C  | 85°C |
| 600R150     | 0.26                          | 0.23  | 0.19 | 0.15 | 0.124 | 0.062 | 0.03 |
| 600R160     | 0.27                          | 0.24  | 0.20 | 0.16 | 0.13  | 0.07  | 0.05 |

**Average Time Current Curves**

**Temperature Derating Curve**

The average time current curves and Temperature Derating curve performance is affected by a number of variables, and these curves provided as guidance only. Customer must verify the performance in their application.

**Agency Specification Selection Guide For Telecom and Networking Applications**

| Part Number        | Lightning                                                                                              | Power Cross                                                            |

\*Resistance binned parts are recommended

**Soldering Parameters - Wave Soldering**

| Condition               | Wave Soldering    |
|-------------------------|-------------------|
| Peak Temp/ DurationTime | 260°C ≤ 5 Sec     |
| ≥ 220°C                 | 2 Sec ~ 20 Sec    |
| Preheat 140°C~ 180°C    | 180 Sec ~ 210 Sec |
| Storage Condition       | 0°C~35°C, ≤ 70%RH |

- Recommended soldering methods: heat element oven or N<sub>2</sub> environment for lead-free
- Devices are designed to be wave soldered to the bottom side of the board.
- Devices can be cleaned using standard industry methods and solvents.
- This profile can be used for lead-free device

**Note:** If soldering temperatures exceed the recommended profile, devices may not meet the performance requirements.

\* Littelfuse will be changing the form dimensions of 600R series devices. Effective February 11, 2010, all 600R series devices will be manufactured using the smaller dimensions listed. This change affects dimensions only, and will have no effect on electrical specification, quality or performance.

**Packaging**

| Part Number | Ordering Number | $I_{hold}$ (A) | $I_{hold}$ Code | Packaging Option | Quantity | Quantity & Packaging Codes |
|-------------|-----------------|----------------|-----------------|------------------|----------|----------------------------|
| 600R150     | 600R150F        | 0.15           | 150             | Bulk             | 200      | F                          |

**Tape and Ammo Specifications**

Devices taped using EIA468-B/IE286-2 standards. See table below and Figure 1 for details.

| Dimension                              | EIA Mark             | IEC Mark             | Dimensions      |              |
|----------------------------------------|----------------------|----------------------|-----------------|--------------|
|                                        |                      |                      | Dim. (mm)       | Tol. (mm)    |
| Carrier tape width                     | <b>W</b>             | <b>W</b>             | 18              | -0.5 / +1.0  |
| Hold down tape width:                  | <b>W<sub>4</sub></b> | <b>W<sub>0</sub></b> | 11              | min.         |
| Top distance between tape edges        | <b>W<sub>6</sub></b> | <b>W<sub>2</sub></b> | 3               | max.         |
| Sprocket hole position                 | <b>W<sub>5</sub></b> | <b>W<sub>1</sub></b> | 9               | -0.5 / +0.75 |
| Sprocket hole diameter*                | <b>D<sub>0</sub></b> | <b>D<sub>0</sub></b> | 4               | -0.32 / +0.2 |
| Abscissa to plane(straight lead)       | <b>H</b>             | <b>H</b>             | 18.5            | -/+ 3.0      |
| Abscissa to plane(kinked lead)         | <b>H<sub>0</sub></b> | <b>H<sub>0</sub></b> | 16              | -/+ 0.5      |
| Abscissa to top                        | <b>H<sub>1</sub></b> | <b>H<sub>1</sub></b> | 32.2            | max.         |
| Overall width w/o lead protrusion      | <b>C<sub>1</sub></b> |                      | 42.5            | max.         |
| Overall width w/ lead protrusion       | <b>C<sub>2</sub></b> |                      | 43.2            | max.         |
| Lead protrusion                        | <b>L<sub>1</sub></b> | <b>I<sub>1</sub></b> | 1.0             | max.         |
| Protrusion of cut out                  | <b>L</b>             | <b>L</b>             | 11              | max.         |
| Protrusion beyond hold-down tape       | <b>I<sub>2</sub></b> | <b>I<sub>2</sub></b> | Not specified   |              |
| Sprocket hole pitch: 600R150 & 600R160 | <b>P<sub>0</sub></b> | <b>P<sub>0</sub></b> | 25.4            | -/+ 0.5      |
| Device pitch: 600R150 & 600R160        |                      |                      | 25.4            |              |
| Pitch tolerance                        |                      |                      | 20 consecutive. | -/+ 1        |
| Tape thickness                         | <b>t</b>             | <b>t</b>             | 0.9             | max.         |
| Tape thickness with splice             | <b>t<sub>1</sub></b> |                      | 2.0             | max.         |
| Splice sprocket hole alignment         |                      |                      | 0               | -/+ 0.3      |
| Body lateral deviation                 | <b>Δh</b>            | <b>Δh</b>            | 0               | -/+ 1.0      |
| Body tape plane deviation              | <b>Δp</b>            | <b>Δp</b>            | 0               | -/+ 1.3      |
| Ordinate to adjacent component lead*   | <b>P<sub>1</sub></b> | <b>P<sub>1</sub></b> | 3.81            | -/+ 0.7      |
| Lead spacing                           | <b>F</b>             | <b>F</b>             | 5.08            | -/+ 0.8      |

\*Differs from EIA Specification

**Tape and Ammo Diagram**

Компания «Life Electronics» занимается поставками электронных компонентов импортного и отечественного производства от производителей и со складов крупных дистрибьюторов Европы, Америки и Азии.

С конца 2013 года компания активно расширяет линейку поставок компонентов по направлению коаксиальный кабель, кварцевые генераторы и конденсаторы (керамические, пленочные, электролитические), за счёт заключения дистрибьюторских договоров

Мы предлагаем:

- Конкурентоспособные цены и скидки постоянным клиентам.
- Специальные условия для постоянных клиентов.
- Подбор аналогов.
- Поставку компонентов в любых объемах, удовлетворяющих вашим потребностям.
- Приемлемые сроки поставки, возможна ускоренная поставка.
- Доставку товара в любую точку России и стран СНГ.
- Комплексную поставку.
- Работу по проектам и поставку образцов.
- Формирование склада под заказчика.
- Сертификаты соответствия на поставляемую продукцию (по желанию клиента).
- Тестирование поставляемой продукции.
- Поставку компонентов, требующих военную и космическую приемку.
- Входной контроль качества.
- Наличие сертификата ISO.

В составе нашей компании организован Конструкторский отдел, призванный помогать разработчикам, и инженерам.

Конструкторский отдел помогает осуществить:

- Регистрацию проекта у производителя компонентов.
- Техническую поддержку проекта.
- Защиту от снятия компонента с производства.
- Оценку стоимости проекта по компонентам.
- Изготовление тестовой платы монтаж и пусконаладочные работы.
