

Dual differential filter with integrated matching for GreenPeak transceiver

Datasheet - production data

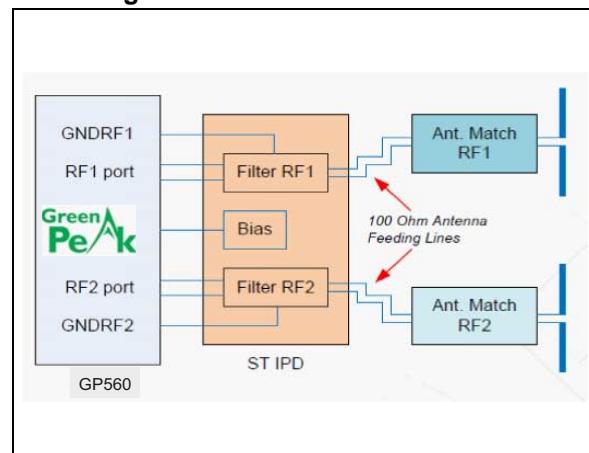

Description

The DLPF-GP-01D3 is an ultra miniature dual differential filter tailored for GreenPeak Zigbee/RF4CE RF transceivers.

The DLPF-GP-01D3 integrates also matching network and replaces 16 SMD components. Matching impedance has been customized for GreenPeak Zigbee/RF4CE RF transceivers. It is using STMicroelectronics IPD technology on non-conductive Glass substrate which optimize RF performances.
