

# Sensor Evaluation Kit, SEK001 For Use with TruStability™ RSC Series and Digital Output Versions of the HSC Series and SSC Series Board Mount Pressure Sensors

32330034

Issue A

Datasheet

#### **DESCRIPTION**

The Sensor Evaluation Kit, SEK001, provides an easier way to demonstrate and evaluate Honeywell's TruStability RSC Series, and the digital output versions (I<sup>2</sup>C or SPI) of the HSC Series and SSC Series Board Mount Pressure Sensors. The kit interfaces a selected sensor to an Arduino™ Uno Rev3 Microcontroller Board. Honeywell software, which is provided free and is downloadable athttp://sensing.honeywell.com/ sensors/evaluation-kit, controls the Arduino Uno Rev3 to take readings from the sensor. Sensor measurements are displayed on the user's PC and can be recorded to a .csv file for further analysis. In addition to being mounted directly on the SEK001, the sensor may also be remotely connected to the SEK001 via wire leads, allowing the sensor to be tested in adverse environments, or in a prototype product for proof of concept testing.

## **VALUE TO CUSTOMERS**

- Quicker, easier TruStability pressure sensor evaluation: The SEK001 and associated Honeywell software simplify sensor evaluation and demonstration by eliminating the need for the customer to develop any code before seeing sensor measurements.
- Remote mounting: In addition to being mounted on the SEK001, the sensor may also be mounted remotely if, for example, it is to be mounted in an oven for testing or in a prototype product for proof-of-concept testing of the customer's end product.
- Cost-effective: Provides a cost-effective way learn about the capabilities of our sensors so customers can make better informed component decisions faster. Customers are then able to perform a thorough evaluation of the sensor without needing to develop additional code.
- Expedites development: As the SEK001 allows customers to test their product, this helps customers to expedite their development process.

## **FEATURES**

- The SEK001 has sockets to receive TruStability HSC, SSC Series pressure sensors with I<sup>2</sup>C or SPI digital output, as well as the new TruStability RSC Series high resolution pressure sensors. The board is then plugged in as a shield board to the user-provided Arduino Uno Rev3 board. (All sensors are sold separately. Only one sensor may be evaluated at a time.)
- Five jumpers for an HSC Series or SSC Series, I<sup>2</sup>C output, 5 Vdc pressure sensor are preconfigured on the board.
- Uses an industry standard Arduino platform
- Sensor Evaluation Boards for other Honeywell sensors are under development

#### **POTENTIAL APPLICATIONS**

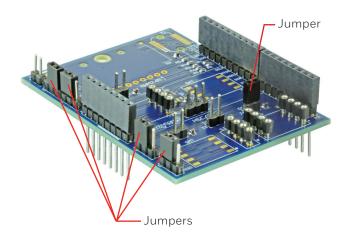

- Sensor demonstration
- Sensor testing and evaluation
- Proof-of-concept testing

Table 1. Sensor Evaluation Kit Contents and User-Provided Items

## Honeywell Sensor Evaluation Kit, SEK001

#### Includes:

- Sensor Evaluation Board
- Five jumpers for **HSCDRRN001ND2A5** preconfigured on board

## **User-Provided Components**

Arduino Uno Rev3 Microcontroller Board (A000066)

USB Interface Cable (Type A Male to Type B Male)

PC with Internet access

(Note: If using a docking station computer, ensure that the computer is not in its docking station when installing and running the software.)

## Table 2. SEK001 Associated Pressure Sensors

RSC Series—High Resolution, High Accuracy, Compensated/Amplified

24-bit Digital SPI-compatible output

DIP, SMT packages

HSC Series—High Accuracy, Compensated/Amplified

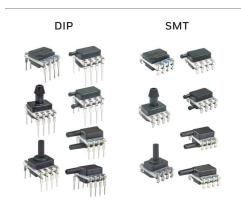

Digital output versions only

**SPI, I<sup>2</sup>C:** DIP, SMT packages I<sup>2</sup>C: SIP packages

SSC Series—Standard Accuracy, Compensated/Amplified

Digital output versions only

**SPI, I<sup>2</sup>C:** DIP, SMT packages I<sup>2</sup>C: SIP packages

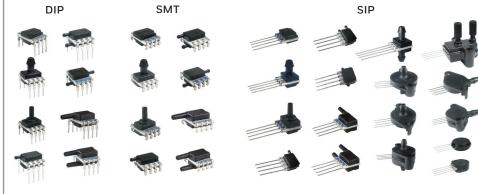

Figure 1. SEK001/Arduino Assembly

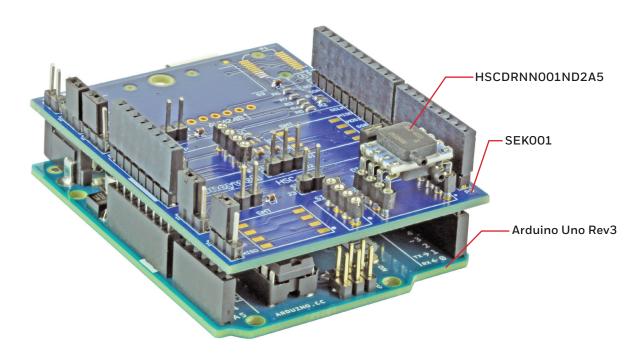

Table 3. SEK001 Specifications

Characteristic	Parameter
Temperature range	20°C to 30°C [68°F to 86°F]
Humidity range	30 %RH to 70 %RH
Power supply: internal (Arduino) external	3.3 V or 5 V 3.3 V or 5 V
Compatible sensors	RSC Series HSC Series (digital verions only) SSC Series (digital versions only)
Associated software	Sensor Evaluation Kit SEK001 Version 1.0.exe Arduino Firmware SEK001 Version 1.0.zip XLoader.zip

Figure 2. Measurement Screen for HSC, SSC Series Only

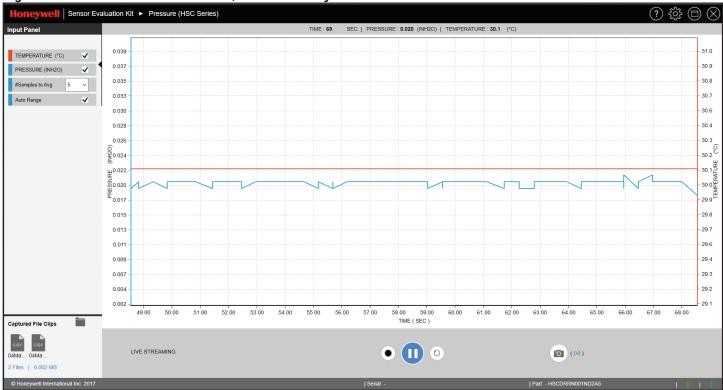

Table 4. Measurement Screen Functions for HSC, SSC Series Only

**Function Description** Input Panel: Selects the desired graph parameters. Click on the "Play" button after making a selection to restart the evaluation. Displays °C or °F of the sensor's ASIC. Temperature Pressure Displays the sensor's pressure. #Samples to Avg. Select from the given number. Auto Range Select to automatically adjust to keep trace on screen. Starts/pauses the LIVE STREAMING function. Also Play/Pause used to restart an evaluation after changing any Input Panel characteristics. Records the measurements in a .cvs file in Excel for Record offline analysis. Restart Resets the time line to 0 sec. Snap Shot Saves a screenshot to a selected folder. Saved Snaps Path Opens the folder of recent file clips and snap shots. Captured File Displays/provides access to recent .cvs files in Excel. Clips Displays the part number of the sensor currently being Part evaluated. Serial Not displayed.

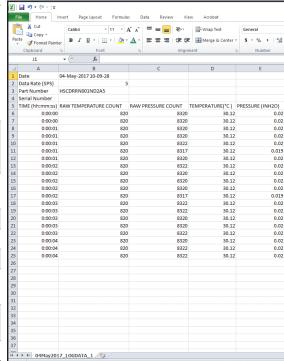

Figure 4. Measurement Screen for RSC Series Only

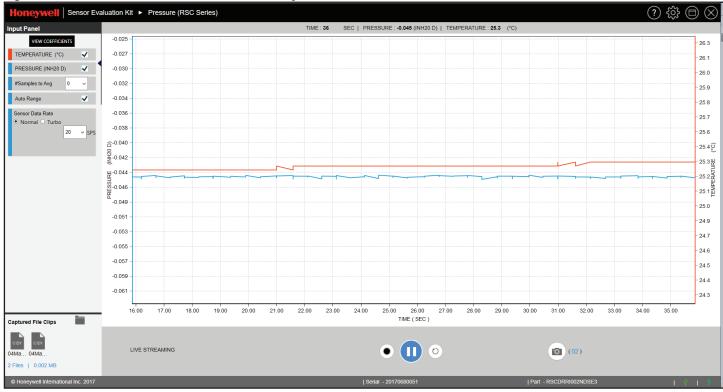

Table 5. Measurement Screen Functions for RSC Series Only

Function	Description
Input Panel:	Selects the desired graph parameters. Click on the "Play" button after making a selection to restart the evaluation.
VIEW COEFFICIENTS	Displays 12 coefficients, as well as other data (see Figure 10).
Temperature	Displays temperature in °C or °F of the sensor's ASIC.
Pressure	Displays the sensor's pressure.
#Samples to Avg	Select from a given number.
Auto Range	Select to automatically adjust scale to keep trace on screen.
Sensor Data Rate	Select from a given number the rate at which the sensor is programmed to make successive readings.
Play/Pause	Starts/pauses the LIVE STREAMING function. Also used to restart an evaluation after changing any
	Input Panel characteristics.
Record	Records the measurements in a .cvs file in Excel for offline analysis.
Restart	Resets the time line to 0 sec.
Snap Shot	Saves a screen shot to a selected folder.
Saved Snaps Path	Opens the folder of recent file clips and snap shots.
Captured File Clips	Displays/provides access to recent .cvs files in Excel format.
Part	Displays the part number of the sensor currently being evaluated.
Serial	Displays the serial number of the sensor currently being evaluated.

## ADDITIONAL INFORMATION

The following associated literature is available on the Honeywell web site at sensing.honeywell.com:

Product User Instructions

## Find out more

Honeywell serves its customers through a worldwide network of sales offices and distributors. For application assistance, current specifications, pricing or name of the nearest Authorized Distributor, contact your local sales office.

To learn more about Honeywell's sensing and switching products, call +1.815.235.6847 or 1.800.537.6945, visit sensing.honeywell.com, or e-mail inquiries to info.sc@honeywell.com

# A WARNING PERSONAL INJURY

DO NOT USE these products as safety or emergency stop devices or in any other application where failure of the product could result in personal injury.

Failure to comply with these instructions could result in death or serious injury.

# ▲ WARNING MISUSE OF DOCUMENTATION

- The information presented in this datasheet is for reference only. Do not use this document as a product installation quide.
- Complete installation, operation, and maintenance information is provided in the instructions supplied with each product.

Failure to comply with these instructions could result in death or serious injury.

## Warranty/Remedy

Honeywell warrants goods of its manufacture as being free of defective materials and faulty workmanship during the applicable warranty period. Honeywell's standard product warranty applies unless agreed to otherwise by Honeywell in writing; please refer to your order acknowledgement or consult your local sales office for specific warranty details. If warranted goods are returned to Honeywell during the period of coverage, Honeywell will repair or replace, at its option, without charge those items that Honeywell, in its sole discretion, finds defective. The foregoing is buyer's sole remedy and is in lieu of all other warranties, expressed or implied, including those of merchantability and fitness for a particular purpose. In no event shall Honeywell be liable for consequential, special, or indirect damages.

While Honeywell may provide application assistance personally, through our literature and the Honeywell web site, it is buyer's sole responsibility to determine the suitability of the product in the application.

Specifications may change without notice. The information we supply is believed to be accurate and reliable as of this writing. However, Honeywell assumes no responsibility for its use.

OOO «ЛайфЭлектроникс" "LifeElectronics" LLC

ИНН 7805602321 КПП 780501001 P/C 40702810122510004610 ФАКБ "АБСОЛЮТ БАНК" (ЗАО) в г.Санкт-Петербурге К/С 3010181090000000703 БИК 044030703

Компания «Life Electronics» занимается поставками электронных компонентов импортного и отечественного производства от производителей и со складов крупных дистрибьюторов Европы, Америки и Азии.

С конца 2013 года компания активно расширяет линейку поставок компонентов по направлению коаксиальный кабель, кварцевые генераторы и конденсаторы (керамические, пленочные, электролитические), за счёт заключения дистрибьюторских договоров

## Мы предлагаем:

- Конкурентоспособные цены и скидки постоянным клиентам.
- Специальные условия для постоянных клиентов.
- Подбор аналогов.
- Поставку компонентов в любых объемах, удовлетворяющих вашим потребностям.
- Приемлемые сроки поставки, возможна ускоренная поставка.
- Доставку товара в любую точку России и стран СНГ.
- Комплексную поставку.
- Работу по проектам и поставку образцов.
- Формирование склада под заказчика.
- Сертификаты соответствия на поставляемую продукцию (по желанию клиента).
- Тестирование поставляемой продукции.
- Поставку компонентов, требующих военную и космическую приемку.
- Входной контроль качества.
- Наличие сертификата ISO.

В составе нашей компании организован Конструкторский отдел, призванный помогать разработчикам, и инженерам.

Конструкторский отдел помогает осуществить:

- Регистрацию проекта у производителя компонентов.
- Техническую поддержку проекта.
- Защиту от снятия компонента с производства.
- Оценку стоимости проекта по компонентам.
- Изготовление тестовой платы монтаж и пусконаладочные работы.
