

Amphenol Aerospace

Size 8 High Speed Quadrax and Differential Twinax Contacts For use in MIL-DTL-38999 Special* Subminiature Cylindrical and ARINC 600 Rectangular Connectors

Quadrax Contacts consist of an outer contact with four strategically spaced inner contacts forming two 100 or 150 Ohm matched impedance differential pairs.

Differential Twinax Contacts consist of an outer contact with two inner contacts spaced to form one 100 or 150 Ohm matched impedance differential pair.

Contacts can be used in connectors for applications:

Ethernet 100 Base-T-100 Ohm

Gigabit Ethernet 1000 Base-T-100 Ohm

Fibre-Channel-150 Ohm

IEEE 1394B FireWire-110 Ohm

Typical Electrical Performance:

Bandwidth: Up to 3 Gigahertz

Data Rate: Exceeding 3 Gbits/sec

Voltage Rating: 500 Vrms max. @ sea level

Dielectric Withstanding Voltage:

1000 VAC rms between all inner contacts @ sea level

500 VAC rms between inner and outer contacts @ sea level

Eight Wire Gigabit Ethernet Assembly

D38999 Series III Groundplane Connector
with Quadrax PCB Sockets

D38999 Series III with Quadrax and
Power Contacts

Quadrax and Twinax Transition Plugs
and Receptacle Adapters

* Requires modified connector to accommodate keyed contacts.

L-1105-1 Printed 5/2008

Board Level Connectors with Compliant Quadrax Contacts

Compliant hole diameters:

.025 $\pm$.002 PTH Quadrax contact

.040 $\pm$.003 PTH Shell grounding

Accommodates backplane .125 inch minimum thickness

Consult Amphenol Aerospace for availability of additional connector configurations.

Compliant Quadrax Socket and PCB Tail Quadrax Pin

Board Level Quadrax Connector

Quadrax Cable Assembly Attached to Board Level Compliant Quadrax Connector

Board Level Transition Adapters

Also available are matched impedance Quadrax and Twinax Transition Adapters which provide a method of launching from the high speed connectors to the PCB boards. Non-threaded adapters for launching direct from the cable end to the board are also available. Part numbers vary depending on cable. Consult Amphenol for more information.

Straight Quadrax Receptacle Contact

90 Degree Twinax Receptacle Contact and Transition Plug

90 Degree Quadrax Receptacle Contact and Transition Plug

The following pages provide a list of contact part numbers available, but not limited to the cables listed. All contacts are available kitted with or installed into ARINC 600 and specially modified MIL-DTL-38999 connectors*.

Quadrax Contact for ARINC Connectors

HOW TO ORDER

Amphenol Quadrax Connectors can be ordered by coded part number. The below connectors are kitted with the 100 Ohm Quadrax 21-033385-051 Socket and 21-033384-051 Pin contacts only. For contacts other than the previous list, please consult Amphenol Aerospace for part numbers.

Example **TVP00RQW21-75P**

Connector Type

TV designates Tri-Start Series Connector**
TVP designates back panel mounted receptacle

Shell Style

00 designates wall mount receptacle
02 designates box mount receptacle available only with the PCB tails and epoxy backfilled (non-removable)
06 designates straight plug
07 designates jam nut receptacle

Service Class

RQF electroless nickel plated aluminum
RGQF electroless nickel plated groundplane aluminum
RQW olive drab cadmium plate
RGQW olive drab cadmium plated groundplane aluminum
RQB NiAlBronze
RGQB NiAlBronze ground plane
RQK corrosion resistance stainless steel
RGQK stainless steel ground plane

Shell Size / Insert arrangement available

MIL-DTL-38999, Sizes 9-25 (see insert arrangements available on next page)

Contact Type

P designates pin contacts
S designates socket contacts

** Consult Amphenol Catalog 12-092 for more information on Tri-Start, MIL-DTL-38999 connectors. This catalog is online at www.amphenol-aerospace.com

Suggested Strain Relief

Due to the piggyback grommet interference with normal strain reliefs on the shell size 9 only, the recommended strain relief for the connector is: Amphenol part number TGW-R-5309-10 (OD Cad) or TGR-R-5309-10 (Electroless Nickel) - Size 9 only

For 19-18 insert pattern, recommended backshell - Glenair 367-221-NF. This is recommended due to the proximity of the Size 8 contacts in relation to the shell.

L-1105

Компания «Life Electronics» занимается поставками электронных компонентов импортного и отечественного производства от производителей и со складов крупных дистрибьюторов Европы, Америки и Азии.

С конца 2013 года компания активно расширяет линейку поставок компонентов по направлению коаксиальный кабель, кварцевые генераторы и конденсаторы (керамические, пленочные, электролитические), за счёт заключения дистрибьюторских договоров

Мы предлагаем:

- Конкурентоспособные цены и скидки постоянным клиентам.
- Специальные условия для постоянных клиентов.
- Подбор аналогов.
- Поставку компонентов в любых объемах, удовлетворяющих вашим потребностям.
- Приемлемые сроки поставки, возможна ускоренная поставка.
- Доставку товара в любую точку России и стран СНГ.
- Комплексную поставку.
