## 1 Introduction

This document describes the AS1111A Evaluation Kit.

The AS1111A is a LED driver designed to match current source bias for any color LED, including white and blue. The devices can drive up to 2 high-current LEDs, and the LED current is programmable using an external resistor (RSET).

The AS1111A LED currents are  $460 \times I_{SET}$  (per LED, type) at an LED cathode voltage (VSAT) of 150mV and  $650 \times I_{SET}$  (type) at a VSAT of 1V, where ISET is the current through RSET connected to pin CTRL.

The AS1111A incorporate a chip-enable feature via pin EN. When the devices is disabled, the supply current drops down to less than 1µA. The AS1111A are available in a 6-pin WL-CSP package with 0.4mm pitch.

## 2 Kit Content

Figure 1: Kit Content

Label	Item	Comment
1	Evaluation Board	AS1111A (6-pin WL-CSP package with 0.4mm pitch)

## 3 Getting Started

Connect your supply to GND, VSET and VLED. Be shure that the jumpers are set like you can see in the Hardware Description below.

### 4 Hardware Description

Figure 2: Evaluation Board Overview

Label	Name	Designator	Description	Info
A	VSET	VSET	Voltage	Voltage to set the LED Current
B	GND	GND	Ground	
C	VLED	VLED	LED Supply	Supply Voltage for the LED's
D	AS1111A	U1	LED – driver	
E	LED's	D1, D2		

Figure 3: Jumper and device locations

Label	Name	Designator	Description	Info
A	J_EN	J_EN	Enable or Disable the LED – driver	 GND - disabled  VSET - enabled
B	RSET	J_Rset		Connect different kind of RSET or you can make a parallel connection. Depending on Jumper J_CTRL.
C	J_CTRL	J_CTRL		Connect / Disconnect the soldered (51k) RSET resistor
D	J1	J1	Jumper	Connect / Disconnect LED's
E	LED's	J_D1, J_D2	Female Header	Connect different kind of LED's

Figure 4: Measurement Points

Label	Name	Designator	Description	Info
A	VSET	VSET	Voltage to set the LED current	Measurement Point
B	LED Voltage	VLED	Supply Voltage for the LED's	Measurement Point
C	GND	GND	Ground	Measurement Point
D	Enable	EN	$V_{EN} \geq 2.2V$ : VOUT is enabled $V_{EN} \leq 0.5V$ : VOUT is disabled	Measurement Point
E	GND	GND	Ground	Measurement Point

## 5 Schematics, Layers and BOM

### 5.1 Schematic of AS1111A Evaluation Board

Demo Kits, Evaluation Kits and Reference Designs are provided to recipient on an “as is” basis for demonstration and evaluation purposes only and are not considered to be finished end-products intended and fit for general consumer use, commercial applications and applications with special requirements such as but not limited to medical equipment or automotive applications. Demo Kits, Evaluation Kits and Reference Designs have not been tested for compliance with electromagnetic compatibility (EMC) standards and directives, unless otherwise specified. Demo Kits, Evaluation Kits and Reference Designs shall be used by qualified personnel only.

ams AG reserves the right to change functionality and price of Demo Kits, Evaluation Kits and Reference Designs at any time and without notice.

Any express or implied warranties, including, but not limited to the implied warranties of merchantability and fitness for a particular purpose are disclaimed. Any claims and demands and any direct, indirect, incidental, special, exemplary or consequential damages arising from the inadequacy of the provided Demo Kits, Evaluation Kits and Reference Designs or incurred losses of any kind (e.g. loss of use, data or profits or business interruption however caused) as a consequence of their use are excluded.

ams AG shall not be liable to recipient or any third party for any damages, including but not limited to personal injury, property damage, loss of profits, loss of use, interruption of business or indirect, special, incidental or consequential damages, of any kind, in connection with or arising out of the furnishing, performance or use of the technical data herein. No obligation or liability to recipient or any third party shall arise or flow out of ams AG rendering of technical or other services.

## 8 Revision Information

Initial version 1-00

Компания «Life Electronics» занимается поставками электронных компонентов импортного и отечественного производства от производителей и со складов крупных дистрибьюторов Европы, Америки и Азии.

С конца 2013 года компания активно расширяет линейку поставок компонентов по направлению коаксиальный кабель, кварцевые генераторы и конденсаторы (керамические, пленочные, электролитические), за счёт заключения дистрибьюторских договоров

Мы предлагаем:

- Конкурентоспособные цены и скидки постоянным клиентам.
- Специальные условия для постоянных клиентов.
- Подбор аналогов.
- Поставку компонентов в любых объемах, удовлетворяющих вашим потребностям.
- Приемлемые сроки поставки, возможна ускоренная поставка.
- Доставку товара в любую точку России и стран СНГ.
- Комплексную поставку.
- Работу по проектам и поставку образцов.
- Формирование склада под заказчика.
- Сертификаты соответствия на поставляемую продукцию (по желанию клиента).
- Тестирование поставляемой продукции.
- Поставку компонентов, требующих военную и космическую приемку.
- Входной контроль качества.
- Наличие сертификата ISO.

В составе нашей компании организован Конструкторский отдел, призванный помогать разработчикам, и инженерам.

Конструкторский отдел помогает осуществить:

- Регистрацию проекта у производителя компонентов.
- Техническую поддержку проекта.
- Защиту от снятия компонента с производства.
- Оценку стоимости проекта по компонентам.
- Изготовление тестовой платы монтаж и пусконаладочные работы.
